

WEBVTT

00:04:58.000 --> 00:05:28.000

>> We have our Secretary-General ready and the special envoy ready as well.

00:07:12.000 --> 00:07:18.000

>> On behalf of local governments, UN habitat together with metropolis

00:07:18.000 --> 00:07:24.000

and on this occasion colleagues from World Enabled and cities for all

00:07:24.000 --> 00:07:30.000

we welcome you back for beyond the outbreak.

00:07:30.000 --> 00:07:35.000

I want to share some technical notes until giving to the Secretary-General.

00:07:35.000 --> 00:07:39.000

As always we will have interpretation in English, Spanish and French.

00:07:39.000 --> 00:07:47.000

We ask you to mute yourself when not speaking.

00:07:47.000 --> 00:07:52.000

When speaking turn on your VDO, speak clearly.

00:07:52.000 --> 00:07:57.000

We suggest this to see the slides.

00:07:57.000 --> 00:08:07.000

In every session we will have online consultations.

00:08:07.000 --> 00:08:10.000

Go to your mobile phone, menti.com and use the code 35 79 18.

00:08:10.000 --> 00:08:16.000

We have closed captions.

00:08:16.000 --> 00:08:19.000

Select the closed captions icon if you want to use this option.

00:08:19.000 --> 00:08:28.000

It will be available in English.

00:08:28.000 --> 00:08:31.000

Welcome back, I yield the floor to the secretary general Emilia Saiz.

00:08:31.000 --> 00:08:37.000

>> Hello, everybody.

00:08:37.000 --> 00:08:45.000

Welcome back to these exciting exchange experiences.

00:08:45.000 --> 00:08:53.000

This one on equity and access in times of pandemic is very dear to my heart.

00:08:53.000 --> 00:08:59.000

Not only because we have wonderful partners in the organisation of World Enabled.

00:08:59.000 --> 00:09:04.000

And also because it is a very critical topic.

00:09:04.000 --> 00:09:13.000

You are going to be hearing many notions this afternoon.

00:09:13.000 --> 00:09:25.000

I wanted to leave with you a thought, what drove United citizen local governments into this partnership with World Enabled.

00:09:25.000 --> 00:09:30.000

And what inspired us to go into a town hall process where communities and those with the experience

00:09:30.000 --> 00:09:36.000

inspired our policy recommendations on this field.

00:09:36.000 --> 00:09:39.000

Let's be honest, friends, our cities are not designed for everybody.

00:09:39.000 --> 00:09:43.000

They are not accessible.

00:09:43.000 --> 00:09:50.000

This has always been an issue.

00:09:50.000 --> 00:09:53.000

Now in terms of this unprecedented pandemic, it is becoming very painful.

00:09:53.000 --> 00:09:57.000

More critical than ever.

00:09:57.000 --> 00:10:07.000

And also something we all care about.

00:10:07.000 --> 00:10:15.000

The security, well-being and livelihood of everybody is becoming an issue of security.

00:10:15.000 --> 00:10:21.000

For everybody else. We can no longer conceive a society in the aftermath of the pandemic

00:10:21.000 --> 00:10:26.000

where some of these invisible groups or populations,

00:10:26.000 --> 00:10:30.000  
are left alone and no longer considered.

00:10:30.000 --> 00:10:36.000  
Our political systems are not ready.

00:10:36.000 --> 00:10:44.000  
Our accessibility policies are not ready, our public spaces are not ready.

00:10:44.000 --> 00:10:49.000  
We, local governments and organisations, need to pick up the responsibility.

00:10:49.000 --> 00:10:52.000  
We need to walk the talk and foster through changes.

00:10:52.000 --> 00:10:56.000  
That is what we are doing today.

00:10:56.000 --> 00:11:00.000  
It is not an abstract narrative.

00:11:00.000 --> 00:11:08.000  
It is actually taking responsibility.

00:11:08.000 --> 00:11:14.000  
In spite of all the good things you will be hearing, many citizens are Webmaster day,

00:11:14.000 --> 00:11:22.000  
all the groundbreaking innovations they are trying to implement,

00:11:22.000 --> 00:11:28.000  
the reality is the urban area is not an accessible for everyone.

00:11:28.000 --> 00:11:33.000  
Let us put our heads together, there is an unprecedented opportunity in this pandemic.

00:11:33.000 --> 00:11:42.000  
Many things we are doing now were considered impossible to months ago.

00:11:42.000 --> 00:11:52.000  
We need to take the responsibility and change things.

00:11:52.000 --> 00:11:56.000  
And local governments have a lot of the competencies to be able to change their lives of many citizens around the world.

00:11:56.000 --> 00:12:04.000  
That is what this is about today.

00:12:04.000 --> 00:12:11.000

I'm excited to have so many good partners and so many interesting cities that have been doing things.

00:12:11.000 --> 00:12:29.000

Through sharing experiences with us.

00:12:29.000 --> 00:12:34.000

It is a great pleasure to introduce to you my millionaire under5 the secretary general of the United Nations.

00:12:34.000 --> 00:12:48.000

They put this high on the political agenda.

00:12:48.000 --> 00:12:57.000

They have three,Ä¶ Many of the things that are in there are critical for real access for all.

00:12:57.000 --> 00:13:05.000

Maimunah, the floor is yours.

00:13:05.000 --> 00:13:11.000

>> Good morning, good afternoon, good evening from Kuala Lumpur.

00:13:11.000 --> 00:13:13.000

I am here to be with my family for the celebration.

00:13:13.000 --> 00:13:19.000

Not on holiday yet.

00:13:19.000 --> 00:13:28.000

It is around 10:15 PM in Kuala Lumpur.

00:13:28.000 --> 00:13:31.000

As you said, Emilia, months ago the city of Wuhan was about to declare a health emergency.

00:13:31.000 --> 00:13:35.000

Since then the world has changed.

00:13:35.000 --> 00:13:47.000

The pandemic has affected everyone equally.

00:13:47.000 --> 00:13:54.000

Many are even more marginalised now with the World Bank estimating that 60 million people will fall into extreme poverty.

00:13:54.000 --> 00:13:58.000

The response measures create physical environmental and exclusion barriers.

00:13:58.000 --> 00:14:12.000

Marginalised communities suffer.

00:14:12.000 --> 00:14:17.000

People with disabilities they face obstacles in accessing healthcare and essential services.

00:14:17.000 --> 00:14:26.000

Income insecurity, missed out mental health services.

00:14:26.000 --> 00:14:35.000

Digital communication, staying at home is difficult for those with hearing, sight challenges.

00:14:35.000 --> 00:14:38.000

As you said, inclusion and against inequality, they are at the heart of our mission.

00:14:38.000 --> 00:14:49.000

And in the midst of this pandemic.

00:14:49.000 --> 00:14:55.000

So in the subsequent learning session we had since 25 March, together you see metropolis and so many close partners.

00:14:55.000 --> 00:15:01.000

Inclusion has been a key measure of cities and local governments.

00:15:01.000 --> 00:15:08.000

They had seen the impact of local health crises and health responses.

00:15:08.000 --> 00:15:16.000

Our first session on adequate housing, there was a strong message on homelessness.

00:15:16.000 --> 00:15:26.000

Homeless people and extremely vulnerable people with underlying health problems and problems of social exclusion.

00:15:26.000 --> 00:15:34.000

Those who have been in the learning session, they have heard the testimony responding to issues of inclusion and injustice

00:15:34.000 --> 00:15:39.000

in the context of migration, local economic development, to recall a few of the many challenges.

00:15:39.000 --> 00:15:46.000

Cities are at the frontline of this crisis.

00:15:46.000 --> 00:15:51.000

They will continue to be in the future in the medium and long-term.

00:15:51.000 --> 00:16:02.000

The loss of employment will generate greater social polarisation.

00:16:02.000 --> 00:16:12.000

The impact will be large in cities and regions, particularly in those where inequality is.

00:16:12.000 --> 00:16:17.000

You see it in the report in 2015, 70% of the cities in the world where growing more unequal, even now.

00:16:17.000 --> 00:16:25.000

Even those considered more egalitarian.

00:16:25.000 --> 00:16:33.000

In 2015 the World Economic Forum considered that inequality was a universal concern.

00:16:33.000 --> 00:16:39.000

There is a big divide.

00:16:39.000 --> 00:16:48.000

The intersection of poverty and inequality will be more visible in cities.

00:16:48.000 --> 00:16:51.000

Policies and actions are needed to review such impact.

00:16:51.000 --> 00:16:58.000

Especially for the most vulnerable.

00:16:58.000 --> 00:17:03.000

Start preparing a special edition of the state of the world cities report.

00:17:03.000 --> 00:17:09.000

Focus on the impact and solution beyond the COVID-19 outbreak.

00:17:09.000 --> 00:17:13.000

Dear friends, we will celebrate the global accessibility day tomorrow.

00:17:13.000 --> 00:17:17.000

21st of May.

00:17:17.000 --> 00:17:27.000

We are putting accessibility front and centre.

00:17:27.000 --> 00:17:33.000

I am grateful for the collaboration, the international development banks and member states. Including friend from Germany.

00:17:33.000 --> 00:17:43.000

Let's focus on inclusion, our mission for inclusion.

00:17:43.000 --> 00:17:53.000

Persons with Disabilities constitute a significant and increasing statement of the urban population anywhere in the world.

00:17:53.000 --> 00:17:56.000

I call on all city's to participate in the cities for all, COVID-19 inclusive and accessible cities pilot survey.

00:17:56.000 --> 00:18:02.000

We are initiating it together.

00:18:02.000 --> 00:18:08.000

Let disabilities, older persons...

00:18:08.000 --> 00:18:18.000

It is difficult to carry out evidence of COVID-19 process.

00:18:18.000 --> 00:18:27.000

Disability and older persons, getting this data, the response must include data on barriers and improve accessibility.

00:18:27.000 --> 00:18:36.000

I also urge to work closely with available disabled people and older person organisations.

00:18:36.000 --> 00:18:42.000

Give them a seat at the table. This will ensure their perspective in the pandemic, responses are considered.

00:18:42.000 --> 00:18:50.000

And ideas for more inclusion used and using their expertise.

00:18:50.000 --> 00:18:56.000

I call on legislation and policies established in an enabling environment.

00:18:56.000 --> 00:19:03.000

To disability and older person inclusive pandemic response.

00:19:03.000 --> 00:19:12.000

In many countries we need to be extra mindful about women and girls with disabilities.

00:19:12.000 --> 00:19:17.000

Response programs need to be accessible and usable by persons with disabilities.

00:19:17.000 --> 00:19:28.000

An older person where they ensure Universal Design principles are followed.

00:19:28.000 --> 00:19:34.000

In conclusion it is important for state, regional and local government to ensure more accessible system capable of responding

00:19:34.000 --> 00:19:40.000

to pandemics and future disasters by reaching out to those left behind.

00:19:40.000 --> 00:19:47.000

These will pave the way for inclusive cities and a better future for all.

00:19:47.000 --> 00:19:53.000

UN Habitat with all of you, thank you Emilia Saiz, thank you.

00:19:53.000 --> 00:19:58.000

>> Thank you, we fully understand you need to leave us.

00:19:58.000 --> 00:20:04.000

You are not on holiday but it is very late in Kuala Lumpur.

00:20:04.000 --> 00:20:11.000

Thank you for those, we know you always make.

00:20:11.000 --> 00:20:16.000

>> It is OK, I will join you, no problem, it is OK.

00:20:16.000 --> 00:20:29.000

>> Die hard. Thank you very much.

00:20:29.000 --> 00:20:50.000

I would like to right now, UN special envoy and accessibility, a friend.

00:20:50.000 --> 00:20:52.000

So, the floor is yours.

00:20:52.000 --> 00:20:56.000

Thank you for joining.

00:20:56.000 --> 00:20:59.000

Are you ready?

00:20:59.000 --> 00:21:04.000

>> Yes, I am ready.

00:21:04.000 --> 00:21:11.000

OK, thank you very much.

00:21:11.000 --> 00:21:17.000

Hello to the colleagues and the audience at is with us now.

00:21:17.000 --> 00:21:22.000

The good news is the joint statement.

00:21:22.000 --> 00:21:30.000

It is about persons with governments and persons with disability.

00:21:30.000 --> 00:21:39.000

(inaudible)

00:21:39.000 --> 00:21:45.000

this statement is very important.

00:21:45.000 --> 00:21:58.000

We have to recognise the accessibility (inaudible)

00:21:58.000 --> 00:22:01.000

we have to give the opportunity to persons with disability.

00:22:01.000 --> 00:22:07.000

They need to live independently.

00:22:07.000 --> 00:22:10.000

The second idea is to recognise

00:22:10.000 --> 00:22:15.000

that accessibility is the most

00:22:15.000 --> 00:22:20.000

mainstream legal strategy

00:22:20.000 --> 00:22:25.000

in the human rights field in the 21st-century.

00:22:25.000 --> 00:22:32.000

This is part of universal design.

00:22:32.000 --> 00:22:38.000

The third important thing is accessibility in (inaudible)

00:22:38.000 --> 00:22:43.000

especially when it refers to green areas.

00:22:43.000 --> 00:22:51.000

And physical space. And transportation.

00:22:51.000 --> 00:22:55.000

But now, with the pandemic, we face a huge negative impact.

00:22:55.000 --> 00:23:00.000

This is in relation to persons with disabilities.

00:23:00.000 --> 00:23:03.000

You can see that many persons with disabilities

00:23:03.000 --> 00:23:11.000

live in poverty.

00:23:11.000 --> 00:23:14.000

They have a lack of accessibility.

00:23:14.000 --> 00:23:17.000

Now, with the pandemic, the situation

00:23:17.000 --> 00:23:21.000

is very bad.

00:23:21.000 --> 00:23:24.000  
There is a lack of accessibility which increases

00:23:24.000 --> 00:23:27.000  
poverty.

00:23:27.000 --> 00:23:30.000  
For this reason, we recognise

00:23:30.000 --> 00:23:37.000  
the leadership of the local government

00:23:37.000 --> 00:23:41.000  
because they are connected to the population

00:23:41.000 --> 00:23:46.000  
in each jurisdiction.

00:23:46.000 --> 00:23:51.000  
They are in direct connection with the needs of this population.

00:23:51.000 --> 00:23:55.000  
And they are addressing central government

00:23:55.000 --> 00:23:59.000  
to care for the well-being, the welfare

00:23:59.000 --> 00:24:02.000  
of persons with disabilities and older persons.

00:24:02.000 --> 00:24:07.000  
The neighbours.

00:24:07.000 --> 00:24:10.000  
Finally, taking into account this situation,

00:24:10.000 --> 00:24:16.000  
we called to the leadership of local government

00:24:16.000 --> 00:24:20.000  
to take full participation of citizens

00:24:20.000 --> 00:24:26.000  
to create inclusion

00:24:26.000 --> 00:24:32.000  
for the preparation of public policies and legislation.

00:24:32.000 --> 00:24:37.000  
We have to face the pandemic.

00:24:37.000 --> 00:24:42.000  
But, to take advantage of this experience.

00:24:42.000 --> 00:24:44.000

And to put in place plans and programs

00:24:44.000 --> 00:24:48.000

in the future.

00:24:48.000 --> 00:24:54.000

Accessibility is now and forever.

00:24:54.000 --> 00:25:01.000

In cities and other places in the future.

00:25:01.000 --> 00:25:03.000

And obviously, without discrimination, prejudice,

00:25:03.000 --> 00:25:09.000

and harmful practices.

00:25:09.000 --> 00:25:12.000

Our second call is in relation to the unit

00:25:12.000 --> 00:25:17.000

and local governments

00:25:17.000 --> 00:25:22.000

as well as organisations that are the voice of local governments,

00:25:22.000 --> 00:25:25.000

to put in a centre of the action plan

00:25:25.000 --> 00:25:30.000

with the topic of accessibility

00:25:30.000 --> 00:25:34.000

and universal accessibility for all persons.

00:25:34.000 --> 00:25:40.000

And we would like to work together

00:25:40.000 --> 00:25:51.000

with these organisations.

00:25:51.000 --> 00:25:57.000

More accessibility is more development.

00:25:57.000 --> 00:26:10.000

Taking into account the 2030 Agenda.

00:26:10.000 --> 00:26:16.000

There are also networks and citizens.

00:26:16.000 --> 00:26:22.000

Finally, I would like to empathise

00:26:22.000 --> 00:26:28.000  
with the great initiative on global conduct.

00:26:28.000 --> 00:26:30.000  
Global conduct is really the space

00:26:30.000 --> 00:26:38.000  
for the dialogue.

00:26:38.000 --> 00:26:44.000  
It affects different stakeholders, and gives them the space

00:26:44.000 --> 00:26:51.000  
to exchange interaction, to get partnership,

00:26:51.000 --> 00:26:54.000  
to make a reality of the accessibility for human rights,

00:26:54.000 --> 00:27:01.000  
and sustainability..

00:27:01.000 --> 00:27:13.000  
I would like to invite, to different cities, to come here.

00:27:13.000 --> 00:27:16.000  
Be a member of the great universal organisation.

00:27:16.000 --> 00:27:20.000  
Thank you very much.

00:27:20.000 --> 00:27:24.000  
>> Thank you very much, Special Envoy.

00:27:24.000 --> 00:27:31.000  
Very important points and full commitment from our side

00:27:31.000 --> 00:27:34.000  
to bring this to the political agenda, where it needs to be.

00:27:34.000 --> 00:27:39.000  
You will not agree with me.

00:27:39.000 --> 00:27:44.000  
I am jumping the script, but for me, the unthinkable thing

00:27:44.000 --> 00:27:50.000  
is that we would not invite certain people to say hello.

00:27:50.000 --> 00:27:54.000  
He needs to greet us all. Victor, the floor is yours.

00:27:54.000 --> 00:27:58.000  
Promise to be brief because you will be speaking later.

00:27:58.000 --> 00:28:04.000  
>> I want to commend the Special Envoy

00:28:04.000 --> 00:28:08.000  
for the steadfast leadership.

00:28:08.000 --> 00:28:13.000  
When we launched the global compact

00:28:13.000 --> 00:28:19.000  
and partners around the world a year and a half ago,

00:28:19.000 --> 00:28:24.000  
we didn't realise it would completely impact people's lives as it has today.

00:28:24.000 --> 00:28:27.000  
The COVID-19 experience in today's webinar,

00:28:27.000 --> 00:28:32.000  
these are good examples of how cities around the world

00:28:32.000 --> 00:28:37.000  
need leadership like the UN.

00:28:37.000 --> 00:28:44.000  
We are delighted to partner with you on the global compact.

00:28:44.000 --> 00:28:49.000  
Thank you so much.

00:28:49.000 --> 00:28:53.000  
>> Thank you so much.

00:28:53.000 --> 00:29:00.000  
So, let us now move to the next segment.

00:29:00.000 --> 00:29:04.000  
This is part of the live learning experience.

00:29:04.000 --> 00:29:10.000  
We want to take the opinion of the room.

00:29:10.000 --> 00:29:16.000  
We have 200 people, but we are broadcasting on YouTube through LinkedIn.

00:29:16.000 --> 00:29:21.000  
I would like to give the floor to Federico.

00:29:21.000 --> 00:29:27.000  
He is someone you all know as a collaborator.

00:29:27.000 --> 00:29:31.000  
Now, also, in our offices of United cities and local governments.

00:29:31.000 --> 00:29:36.000  
Federico, the floor is yours.

00:29:36.000 --> 00:29:44.000  
Lead us through the survey.

00:29:44.000 --> 00:29:53.000  
All right, everyone.

00:29:53.000 --> 00:30:01.000  
Please go to the website and use the code 357918.

00:30:01.000 --> 00:30:09.000  
There are some words coming up, what is one word that comes to mind when thinking of the word accessible.

00:30:09.000 --> 00:30:14.000  
Once you get into this, please put in the words that come to mind.

00:30:14.000 --> 00:30:17.000  
Barriers, universal, inclusion, writes, entitled.

00:30:17.000 --> 00:30:22.000  
Freedom is big.

00:30:22.000 --> 00:30:25.000  
The larger the word, the more people have put that in.

00:30:25.000 --> 00:30:31.000  
We will give a minute or so.

00:30:31.000 --> 00:30:33.000  
But yes, I think inclusion, equality,

00:30:33.000 --> 00:30:38.000  
freedom is big.

00:30:38.000 --> 00:30:42.000  
The more accessible the world is, the more free.

00:30:42.000 --> 00:30:48.000  
Justice and inclusion are coming up as well.

00:30:48.000 --> 00:30:51.000  
Innovation as well, because accessibility is innovation.

00:30:51.000 --> 00:30:57.000  
We will go to the next slide.

00:30:57.000 --> 00:31:02.000  
We will share briefing afterwards so you will see this in the briefing.

00:31:02.000 --> 00:31:07.000

Next is,

00:31:07.000 --> 00:31:11.000  
how effectively do you think accessibility policies have been implemented

00:31:11.000 --> 00:31:14.000  
in your local and regional government?

00:31:14.000 --> 00:31:19.000  
We have a scale of one to five.

00:31:19.000 --> 00:31:26.000  
Five is well incremented and zero is not at all.

00:31:26.000 --> 00:31:30.000  
We are in the middle on the lower,Ä¶ Maybe not the middle yet.

00:31:30.000 --> 00:31:32.000  
Maybe we are getting into the centre.

00:31:32.000 --> 00:31:38.000  
2.8.

00:31:38.000 --> 00:31:42.000  
>> This also shows the balance of the participants that we have.

00:31:42.000 --> 00:31:46.000  
We have local governments which are convinced and trying to do their best,

00:31:46.000 --> 00:31:50.000  
but we have people who are experiencing and looking

00:31:50.000 --> 00:31:56.000  
at this topic very critically.

00:31:56.000 --> 00:31:56.000  
It is quite a flair

00:31:56.000 --> 00:31:59.000  
ASHE DRYDEN:

00:31:59.000 --> 00:32:03.000  
Fair reflection of our world.

00:32:03.000 --> 00:32:08.000  
>> I like to think of it as the glass half full.

00:32:08.000 --> 00:32:14.000  
So, let me go to the next one.

00:32:14.000 --> 00:32:22.000  
The next one is asking you to choose between three options.

00:32:22.000 --> 00:32:29.000

What are the main challengers to implementing Urban accessibility policy standards?

00:32:29.000 --> 00:32:38.000

Is it budget constraints, coordination, local government leadership?

00:32:38.000 --> 00:32:42.000

The lack of local data to identify accessibility barriers or marginalised groups?

00:32:42.000 --> 00:32:46.000

Or limited awareness of accessibility?

00:32:46.000 --> 00:32:50.000

The big thing is interesting.

00:32:50.000 --> 00:32:54.000

It is limited awareness and understanding.

00:32:54.000 --> 00:32:59.000

>> I chose limited awareness.

00:32:59.000 --> 00:33:02.000

This is what I am finding with our membership.

00:33:02.000 --> 00:33:07.000

A lot of them would have the political will to do this

00:33:07.000 --> 00:33:11.000

and try to find the means to do it,

00:33:11.000 --> 00:33:17.000

but very often, they don't know how to approach this.

00:33:17.000 --> 00:33:23.000

I can say this for local governments, and that is one of the reasons, not the only reason,

00:33:23.000 --> 00:33:26.000

why you are with us and we are partnering with Was Enabled.

00:33:26.000 --> 00:33:29.000

It has been on our agenda.

00:33:29.000 --> 00:33:33.000

There are many things we do not understand.

00:33:33.000 --> 00:33:38.000

Having a great understanding is very important.

00:33:38.000 --> 00:33:42.000

The other columns are important as well, but I am happy

00:33:42.000 --> 00:33:44.000  
this is the highest one. It gives me hope.

00:33:44.000 --> 00:33:50.000  
>> Me too.

00:33:50.000 --> 00:33:53.000  
I hope the others are really strong, that the more understanding and capacity building we have,

00:33:53.000 --> 00:33:57.000  
the more accessible cities can be.

00:33:57.000 --> 00:34:01.000  
So, the last one is directed at COVID-19.

00:34:01.000 --> 00:34:12.000  
What have you seen in your cities?

00:34:12.000 --> 00:34:22.000  
We have four options.

00:34:22.000 --> 00:34:28.000  
These are four options that we have seen trending a lot

00:34:28.000 --> 00:34:33.000  
in terms of media, and responses that countries are taking.

00:34:33.000 --> 00:34:37.000  
It looks slick social and mental health care services are coming up.

00:34:37.000 --> 00:34:42.000  
Of course, information in an accessible format.

00:34:42.000 --> 00:34:45.000  
The aspect of social and mental health care speaks to the confinement measures

00:34:45.000 --> 00:34:48.000  
that are happening, and also,

00:34:48.000 --> 00:34:53.000  
limited access to public services.

00:34:53.000 --> 00:34:58.000  
And of course, the information gap,

00:34:58.000 --> 00:35:01.000  
making sure we have timely access to information that is important on what is happening

00:35:01.000 --> 00:35:04.000  
in Barcelona, and the phases

00:35:04.000 --> 00:35:08.000  
of reopening.

00:35:08.000 --> 00:35:23.000  
>> Is this the last question for us?

00:35:23.000 --> 00:35:28.000  
>> I was a little bit surprised about not a higher percentage

00:35:28.000 --> 00:35:31.000  
of those last answers to go to digital inclusion.

00:35:31.000 --> 00:35:35.000  
I think it is a critical aspect.

00:35:35.000 --> 00:35:38.000  
This is why we hold these tiny surveys.

00:35:38.000 --> 00:35:42.000  
Sometimes the answers can surprise us.

00:35:42.000 --> 00:35:45.000  
Promoting a different type of policy.

00:35:45.000 --> 00:35:50.000  
Let's go to the next section.

00:35:50.000 --> 00:35:59.000  
Thank you Federico and team for putting this together.

00:35:59.000 --> 00:36:02.000  
We have an impressive panel, too impressive, too many good cases and little time.

00:36:02.000 --> 00:36:08.000  
I don't know how we will manage.

00:36:08.000 --> 00:36:13.000  
So perspectives from the local government.

00:36:13.000 --> 00:36:27.000  
Those who are doing day in, day out.

00:36:27.000 --> 00:36:36.000  
I am very pleased to have with us from far away from Indonesia.

00:36:36.000 --> 00:36:41.000  
We are very grateful to have you with us to share your perspectives.

00:36:41.000 --> 00:36:47.000  
Are you ready?

00:36:47.000 --> 00:36:50.000  
>> OK.

00:36:50.000 --> 00:36:55.000  
Thank you, Emilia.

00:36:55.000 --> 00:37:05.000  
Thank you very much for this event.

00:37:05.000 --> 00:37:12.000  
I'm from Indonesia. H. Ibnu Sina.

00:37:12.000 --> 00:37:19.000  
The capital city.

00:37:19.000 --> 00:37:23.000  
We have 7700 population.

00:37:23.000 --> 00:37:33.000  
And, Å¶

00:37:33.000 --> 00:37:41.000  
How is the COVID-19 affecting Banjarmasin?inclusion?

00:37:41.000 --> 00:37:43.000  
You can look at the map, red zone.

00:37:43.000 --> 00:37:48.000  
This is a river.

00:37:48.000 --> 00:37:58.000  
And local government.

00:37:58.000 --> 00:38:02.000  
The city of Banjarmasin did an SPV.

00:38:02.000 --> 00:38:11.000  
To look at the outbreak of COVID-19.

00:38:11.000 --> 00:38:26.000  
Sorry.

00:38:26.000 --> 00:38:32.000  
Oh, yes. OK.

00:38:32.000 --> 00:38:41.000  
I can continue.

00:38:41.000 --> 00:38:51.000  
Limit access to all public facilities including public transportation,  
school and workplace.

00:38:51.000 --> 00:38:56.000  
It restricts sports applying protocol, congregation for religious  
purposes.

00:38:56.000 --> 00:39:02.000

Mulls, other activities like construction.

00:39:02.000 --> 00:39:10.000

The city has now produced the number of public activity significantly.

00:39:10.000 --> 00:39:16.000

The situation poses threats to livelihood and economic condition of the most vulnerable groups in the city.

00:39:16.000 --> 00:39:20.000

Daily work men, workers, many of them are informal.

00:39:20.000 --> 00:39:35.000

They have lost sources of income in the public health sector.

00:39:35.000 --> 00:39:38.000

Banjarmasin has a long-term commitment to people with disabilities, elderly have referred the city to act on those targeted action.

00:39:38.000 --> 00:39:45.000

Next slide.

00:39:45.000 --> 00:39:54.000

The city government has a special task force for COVID-19 response.

00:39:54.000 --> 00:40:01.000

It integrated multi-stakeholders like the local agency for disaster countermeasure

00:40:01.000 --> 00:40:08.000

The health office and police and municipal police.

00:40:08.000 --> 00:40:18.000

We are implementing strict health protocols and making sure people are staying at home.

00:40:18.000 --> 00:40:25.000

In response to this protocol, the city of Banjarmasin with state-owned companies, schools and universities,

00:40:25.000 --> 00:40:32.000

micro, small and medium-sized enterprises and community-based organisations.

00:40:32.000 --> 00:40:45.000

We have sanitation and facemasks. Special facemasks.

00:40:45.000 --> 00:40:56.000

It includes see-through facemasks for persons with hearing impairments and distribute it to citizens of Banjarmasin.

00:40:56.000 --> 00:41:01.000

Last point, including people with disabilities, the elderly, urban poor, the vulnerable groups,

00:41:01.000 --> 00:41:06.000

were affected by the outbreak and face financial issues.

00:41:06.000 --> 00:41:19.000

The city of Banjarmasin has support for multi-stakeholders.

00:41:19.000 --> 00:41:28.000

Social safety net free distribution of assistance, ensuring food supply, particularly during Ramadan.

00:41:28.000 --> 00:41:39.000

The city of Banjarmasin together with the community provides a public kitchen for residents in need.

00:41:39.000 --> 00:41:48.000

And during this, guaranteed basic rights, basic necessities.

00:41:48.000 --> 00:41:52.000

The right to help, and help vulnerable groups.

00:41:52.000 --> 00:41:58.000

Media information, uses sign language.

00:41:58.000 --> 00:42:02.000

The impacts are overcome with a social safety net program.

00:42:02.000 --> 00:42:10.000

To get basic access right.

00:42:10.000 --> 00:42:22.000

I think that is Banjarmasin action.

00:42:22.000 --> 00:42:26.000

For collaboration and, "We hope this pandemic,"

00:42:26.000 --> 00:42:30.000

Will recover. Thank you very much.

00:42:30.000 --> 00:42:34.000

>> Thank you, we do as well.

00:42:34.000 --> 00:42:42.000

We hope we will be able to bend the curve.

00:42:42.000 --> 00:42:48.000

We hope we can overcome the great suffering for millions of people in the planet.

00:42:48.000 --> 00:42:53.000

It is good to see how important things are on your agenda.

00:42:53.000 --> 00:42:56.000

I am particularly pleased to see the social safety net.

00:42:56.000 --> 00:43:03.000

When people are talking about social distancing

00:43:03.000 --> 00:43:09.000

we keep saying local governments want physical distancing to be safe.

00:43:09.000 --> 00:43:12.000

But social encroachment and social safety net, thank you very much.

00:43:12.000 --> 00:43:25.000

>> Thank you very much.

00:43:25.000 --> 00:43:38.000

>> Allow me now to go to the next speaker I have in my list.

00:43:38.000 --> 00:43:50.000

The Commissioner for people with disabilities from Soa Paolo, Cid Torquato.

00:43:50.000 --> 00:44:05.000

>> Thank you, it is a great honour for us to participate in this very important event.

00:44:05.000 --> 00:44:08.000

To begin with, I bring a warm embrace from a strong supporter of all of our actions.

00:44:08.000 --> 00:44:15.000

In terms of our secretariat.

00:44:15.000 --> 00:44:25.000

I would like to thank him for letting us do everything we have been doing.

00:44:25.000 --> 00:44:37.000

I was invited to talk about what we are doing in São Paulo.

00:44:37.000 --> 00:44:41.000

In order to mitigate the impact of the virus in our population with disabilities.

00:44:41.000 --> 00:44:49.000

Persons with Disabilities.

00:44:49.000 --> 00:44:57.000

What I have to do, we are working in many different fields.

00:44:57.000 --> 00:45:07.000

In order to provide assistance to the persons with disabilities the most needed.

00:45:07.000 --> 00:45:14.000

We are monitoring all of the associations and organisations that work directly with Persons with Disabilities.

00:45:14.000 --> 00:45:21.000

As well as we began, we built a centre.

00:45:21.000 --> 00:45:27.000

Only for Persons with Disabilities that live in the streets.

00:45:27.000 --> 00:45:36.000

Homeless Persons with Disabilities.

00:45:36.000 --> 00:45:45.000

Where we provide, " A normal service that you have in such centres.

00:45:45.000 --> 00:45:53.000

We have specific services directed to our public.

00:45:53.000 --> 00:45:58.000

Wheelchairs and, " Equipment that they might use.

00:45:58.000 --> 00:46:06.000

Use in order to move.

00:46:06.000 --> 00:46:15.000

I would like to, I would like to change a little bit subject.

00:46:15.000 --> 00:46:22.000

Not to talk about what we are doing in São Paulo but propose a new perspective on what is happening.

00:46:22.000 --> 00:46:35.000

Now, especially what is happening with people with disabilities all over the world.

00:46:35.000 --> 00:46:39.000

These days, it is true, people with disabilities are under a lot of pressure.

00:46:39.000 --> 00:46:54.000

And many different threats.

00:46:54.000 --> 00:47:02.000

Not only the threat of not receiving assistance, medical assistance when they need it.

00:47:02.000 --> 00:47:08.000

We have the perspective of threats on rights conquered.

00:47:08.000 --> 00:47:18.000

Very hardly, along the last decades.

00:47:18.000 --> 00:47:26.000

We know in such crisis and government agents, governments have to cut budgets.

00:47:26.000 --> 00:47:38.000

The people that need the most suffer the most as well.

00:47:38.000 --> 00:48:01.000

We are under many different threats that we have to prepare ourselves to deal with them.

00:48:01.000 --> 00:48:07.000

As well as we have to be united to have political power, resist and not let our rights, any threats on our rights.

00:48:07.000 --> 00:48:14.000

The proposition is different. It is in a different direction.

00:48:14.000 --> 00:48:22.000

With all this negativity, stress towards Persons with Disabilities

00:48:22.000 --> 00:48:35.000

I see a great window of opportunities.

00:48:35.000 --> 00:48:42.000

That the digital transformation and the fact that unfortunately a lease for the next months and years

00:48:42.000 --> 00:48:53.000

we believe in isolation.

00:48:53.000 --> 00:48:57.000

We are not going to have the contacts or the social contact we had before.

00:48:57.000 --> 00:49:04.000

It will be a different civilisation.

00:49:04.000 --> 00:49:21.000

I see a great opportunity for Persons with Disabilities in this scenario.

00:49:21.000 --> 00:49:35.000

Working at home, home office, it is a great opportunity for persons with disabilities.

00:49:35.000 --> 00:49:44.000

The fact that we will have more virtual, we will be,Ä¶ Living in a more virtual society.

00:49:44.000 --> 00:49:51.000

I understand this equalises, makes everybody more equal.

00:49:51.000 --> 00:50:01.000

The fact that we don't have to socialise, which is a pity.

00:50:01.000 --> 00:50:11.000  
On the other hand, it offers us a chance of being in the virtual world,  
more equal.

00:50:11.000 --> 00:50:14.000  
And to suffer less with the prejudice that is still so strong.

00:50:14.000 --> 00:50:40.000  
With Persons with Disabilities.

00:50:40.000 --> 00:50:46.000  
And, you know,

00:50:46.000 --> 00:50:53.000  
in this search for persons with disabilities that now work

00:50:53.000 --> 00:50:56.000  
in companies in the real world.

00:50:56.000 --> 00:50:59.000  
>> You need to wrap up.

00:50:59.000 --> 00:51:05.000  
>> I am concluding!

00:51:05.000 --> 00:51:13.000  
It is good for persons that are already active in society,

00:51:13.000 --> 00:51:20.000  
but it is also a window of opportunity for persons with disabilities.

00:51:20.000 --> 00:51:24.000  
Talented persons with disabilities that cannot leave home.

00:51:24.000 --> 00:51:27.000  
So, you know,

00:51:27.000 --> 00:51:31.000  
that is my contribution.

00:51:31.000 --> 00:51:37.000  
Again, to conclude, in the midst of threat

00:51:37.000 --> 00:51:43.000  
and in such negative things that are happening

00:51:43.000 --> 00:51:47.000  
I see a positive way out

00:51:47.000 --> 00:51:50.000  
and a great window of opportunity for persons with disabilities

00:51:50.000 --> 00:51:53.000  
in this future world together

00:51:53.000 --> 00:51:56.000  
with the digital transformation

00:51:56.000 --> 00:51:58.000  
that we are going through.

00:51:58.000 --> 00:52:02.000  
Thank you very much.

00:52:02.000 --> 00:52:06.000  
>> Thank you for those inspiring words.

00:52:06.000 --> 00:52:12.000  
I fully share with you this vision of hope,

00:52:12.000 --> 00:52:18.000  
and I always say it is not naive to think there is a window of opportunity here.

00:52:18.000 --> 00:52:29.000  
I also want to take this opportunity to thank all of these cities including São Paulo

00:52:29.000 --> 00:52:34.000  
And those few cities who have not signed up yet, we have high hopes that you will very soon.

00:52:34.000 --> 00:52:41.000  
So, thank you for that.

00:52:41.000 --> 00:52:46.000  
I guess you are calling for looking at not the new normal.

00:52:46.000 --> 00:52:50.000  
We need to be aware of a very different type of world

00:52:50.000 --> 00:52:57.000  
where there are different opportunities.

00:52:57.000 --> 00:53:09.000  
There are very high opportunities for people online.

00:53:09.000 --> 00:53:12.000  
we now have a speaker from Abu Dhabi.

00:53:12.000 --> 00:53:16.000  
Let's see if she shares this hope with us.

00:53:16.000 --> 00:53:20.000  
Thank you again for your input.

00:53:20.000 --> 00:53:25.000  
>> Thank you. Hello, everyone.

00:53:25.000 --> 00:53:30.000  
Thank you for hosting us today and thank you for this great webinar

00:53:30.000 --> 00:53:39.000  
that talks about a vulnerable group that needs to be looked at,

00:53:39.000 --> 00:53:48.000  
and we need to take actions to improve the quality of the service provision and life.

00:53:48.000 --> 00:53:55.000  
I will be talking about global impact from the pandemic.

00:53:55.000 --> 00:53:58.000  
We will talk about a few initiatives that the city of Abu Dhabi implemented in this pandemic

00:53:58.000 --> 00:54:02.000  
and senior citizens,

00:54:02.000 --> 00:54:06.000  
as well as the United Arab Emirates.

00:54:06.000 --> 00:54:10.000  
We are all aware that this pandemic has affected everyone,

00:54:10.000 --> 00:54:17.000  
regardless of whether or not they are vulnerable.

00:54:17.000 --> 00:54:20.000  
No one was expecting that life will be changed.

00:54:20.000 --> 00:54:27.000  
There will be online education, working from home,

00:54:27.000 --> 00:54:36.000  
and there will be lots of people who cannot access education. We are very lucky to be able to do that.

00:54:36.000 --> 00:54:47.000  
When the pandemic happened, lots of education systems were not ready.

00:54:47.000 --> 00:54:51.000  
Schools were ready with online learning platforms.

00:54:51.000 --> 00:54:54.000  
I was already involved in that back in 2014.

00:54:54.000 --> 00:54:58.000  
We were lurking on Smart learning back then.

00:54:58.000 --> 00:55:02.000  
We never expected to use it in this time.

00:55:02.000 --> 00:55:07.000

Immediately, schooling was challenging.

00:55:07.000 --> 00:55:10.000

These were for people with disabilities.

00:55:10.000 --> 00:55:17.000

This is a new normal.

00:55:17.000 --> 00:55:22.000

They are not used to online education, and the rehabilitation services

00:55:22.000 --> 00:55:28.000

have been affected as people were impacted.

00:55:28.000 --> 00:55:40.000

We know that certain progressions will happen, but not fully

00:55:40.000 --> 00:55:44.000

because we had locked down. By the time lockdown happened,

00:55:44.000 --> 00:55:48.000

people adapted to that very fast

00:55:48.000 --> 00:55:53.000

and we have had a few meetings with entities

00:55:53.000 --> 00:56:01.000

who are providing services, knowing that partners is

00:56:01.000 --> 00:56:12.000

will be looking at social areas and sectors.

00:56:12.000 --> 00:56:16.000

Services are provided through different entities.

00:56:16.000 --> 00:56:19.000

We have 11, so we had a meeting,

00:56:19.000 --> 00:56:27.000

and we are looking to the plan.

00:56:27.000 --> 00:56:33.000

In the UAE, we have a lot of people living in extended families

00:56:33.000 --> 00:56:36.000

and people are either living in their own home alone,

00:56:36.000 --> 00:56:41.000

with their own families.

00:56:41.000 --> 00:56:47.000

These people have been affected by the pandemic and issues have increased

00:56:47.000 --> 00:56:52.000

especially for those who are vulnerable to mental health issues.

00:56:52.000 --> 00:56:57.000

So, issues have been taken by the UAE.

00:56:57.000 --> 00:57:04.000

We activated the online rehabilitation and services for people with disabilities.

00:57:04.000 --> 00:57:11.000

Maybe I was one of the first ones who had a personal story that I can share.

00:57:11.000 --> 00:57:18.000

I have a son with autism.

00:57:18.000 --> 00:57:23.000

He goes to university so the University started teaching online and my son has a shadow.

00:57:23.000 --> 00:57:27.000

I insisted from the shadow teachers and therapists that they provide them online

00:57:27.000 --> 00:57:30.000

and do not come to the house, to keep physical distancing.

00:57:30.000 --> 00:57:34.000

It took him only two weeks.

00:57:34.000 --> 00:57:40.000

I said they have to go through that learning curve, and everyone did.

00:57:40.000 --> 00:57:46.000

Now, they are all adapted to it and learning online.

00:57:46.000 --> 00:57:52.000

Similar to that experience applicable to the centres here for schools.

00:57:52.000 --> 00:57:57.000

So, it was not easy for parents, parents are working from home.

00:57:57.000 --> 00:58:03.000

They also caregivers and working now.

00:58:03.000 --> 00:58:08.000

So, we had few policies. The government was the first to have a policy

00:58:08.000 --> 00:58:12.000

for mothers to be at home, mothers of children,

00:58:12.000 --> 00:58:17.000

below the age of 15,

00:58:17.000 --> 00:58:22.000  
seniors were not allowed to be at work,

00:58:22.000 --> 00:58:29.000  
and those,Ä¶ Also pregnant women.

00:58:29.000 --> 00:58:36.000  
Vulnerable people were not allowed to work from the office.

00:58:36.000 --> 00:58:41.000  
Working from home was implemented later, so these of a few actions that took place.

00:58:41.000 --> 00:58:45.000  
People with disability had to work from home immediately, and the schooling,

00:58:45.000 --> 00:58:48.000  
we started adding online services.

00:58:48.000 --> 00:58:53.000  
It took time, but it happened.

00:58:53.000 --> 00:58:57.000  
The government initiated a couple of other services for them.

00:58:57.000 --> 00:59:07.000  
I could see some of the governments have done the same.

00:59:07.000 --> 00:59:13.000  
We have activated consultations,

00:59:13.000 --> 00:59:19.000  
as well as for senior citizens, and we activated some social sector services

00:59:19.000 --> 00:59:23.000  
like providing food, healthcare, and,Ä¶

00:59:23.000 --> 00:59:31.000  
>> 30 seconds. You need to wrap up.

00:59:31.000 --> 00:59:37.000  
>> The government started providing,Ä¶ Even the testing was for free, and they go to the housing for seniors.

00:59:37.000 --> 00:59:44.000  
And the food, they ensured they had enough food and provide them with food.

00:59:44.000 --> 00:59:48.000  
There is lots of education and awareness that has been provided.

00:59:48.000 --> 00:59:55.000

Medications are provided for free and they deliver it to the house.

00:59:55.000 --> 01:00:02.000

So, many actions have been taken by the government to do so.

01:00:02.000 --> 01:00:03.000

That is when Abu Dhabi left the protection framework which was, in some way, Ä¶

01:00:03.000 --> 01:00:09.000

>> Thank you.

01:00:09.000 --> 01:00:20.000

Thank you very much.

01:00:20.000 --> 01:00:24.000

I think it is important to share that working from home

01:00:24.000 --> 01:00:29.000

cannot become the only option.

01:00:29.000 --> 01:00:36.000

I would say that is true for anybody, but in particular, people with disabilities.

01:00:36.000 --> 01:00:43.000

It has been a group that has been invisible for a long time, and we want that group to be visible.

01:00:43.000 --> 01:00:48.000

We need to find that balance, but thank you very much for those important measures

01:00:48.000 --> 01:00:53.000

that are very helpful in the midst of the pandemic. Thank you.

01:00:53.000 --> 01:01:03.000

I would like to go now to our next speaker.

01:01:03.000 --> 01:01:06.000

We will go to a different reality, that of the price mayor of Suez.

01:01:06.000 --> 01:01:28.000

The floor is yours.

01:01:28.000 --> 01:01:58.000

(SPEAKS FRENCH)

01:03:18.000 --> 01:03:24.000

It is national or regional.

01:03:24.000 --> 01:03:29.000

What we have done is a slogan which is solidarity without borders.

01:03:29.000 --> 01:03:34.000  
And under that logo, a solidarity city,

01:03:34.000 --> 01:03:43.000  
we have set up the management committee for social aid.

01:03:43.000 --> 01:03:47.000  
This is comprised of the regional Commissioner for social affairs,

01:03:47.000 --> 01:03:50.000  
the national body for social affairs,

01:03:50.000 --> 01:03:55.000  
the trade unions,

01:03:55.000 --> 01:04:01.000  
and a whole bunch of other organisations, so what we are doing is  
building multilevel dialogue

01:04:01.000 --> 01:04:07.000  
between the national services, and the decentralised services.

01:04:07.000 --> 01:04:13.000  
To that network, and through this dialogue and Corporation,

01:04:13.000 --> 01:04:21.000  
we have been able to build a database

01:04:21.000 --> 01:04:25.000  
only working

01:04:25.000 --> 01:04:33.000  
in the metropolitan area of Suez.

01:04:33.000 --> 01:04:39.000  
But we have managed to unify the organisation's

01:04:39.000 --> 01:04:42.000  
and associations towards Tunisians

01:04:42.000 --> 01:04:47.000  
batch to foreigners as well.

01:04:47.000 --> 01:04:53.000  
We have unified and pulled these efforts, and we have begun

01:04:53.000 --> 01:05:07.000  
to launch a call for donations.

01:05:07.000 --> 01:05:12.000  
We have private sector associations, and citizens.

01:05:12.000 --> 01:05:42.000

Then, through this action we have rolled out,

01:05:56.000 --> 01:06:00.000

And most importantly

01:06:00.000 --> 01:06:10.000

The cultural aspects.

01:06:10.000 --> 01:06:13.000

We were able to provide circumcision for sub-Saharan African Muslim population

01:06:13.000 --> 01:06:25.000

with our Tunisian colleagues.

01:06:25.000 --> 01:06:34.000

That action has strength and inclusion of migrants.

01:06:34.000 --> 01:06:44.000

I am out of time, there is a lot of things we have been doing in medical and health issues I would like to share with you.

01:06:44.000 --> 01:06:53.000

Infections in University residence, Hall of residence where all the refugees are, migrants.

01:06:53.000 --> 01:07:00.000

We are looking at migrant flows and we know the importance these migrants have.

01:07:00.000 --> 01:07:07.000

And how important it will be to reintegrate them back into society once the pandemic is over.

01:07:07.000 --> 01:07:15.000

We are thinking of strategies for how to improve migrant access to public services

01:07:15.000 --> 01:07:18.000

and access to information and most importantly the digitalisation.

01:07:18.000 --> 01:07:23.000

Thank you.

01:07:23.000 --> 01:07:28.000

Matt

01:07:28.000 --> 01:07:38.000

>> Thank you for bringing the perspective of the migrants.

01:07:38.000 --> 01:07:46.000

There are many vulnerable groups we need to secure local service provision.

01:07:46.000 --> 01:07:51.000

If we take care of those groups we will be ensuring better livelihoods for everybody else in society.

01:07:51.000 --> 01:07:59.000

So very important as an approach for migrants.

01:07:59.000 --> 01:08:03.000

We hope that you will be signing up for inclusive and accessible cities very soon.

01:08:03.000 --> 01:08:09.000

Certainly the work you are doing fully deserves it.

01:08:09.000 --> 01:08:18.000

Thank you for the intervention and allow me to go to another continent.

01:08:18.000 --> 01:08:22.000

A different reality, a world city that has been very badly hit by the pandemic.

01:08:22.000 --> 01:08:30.000

As many others. Around the globe.

01:08:30.000 --> 01:08:33.000

I would like to invite Victor Calise from New York City.

01:08:33.000 --> 01:08:37.000

The floor is yours.

01:08:37.000 --> 01:08:43.000

>> It is a pleasure to be here today.

01:08:43.000 --> 01:08:48.000

I want to recognise Emilia and the others for your comments earlier today.

01:08:48.000 --> 01:08:53.000

Talking about cities, how unprepared they are and the inequities that exist

01:08:53.000 --> 01:08:57.000

and how we must push this forward in the COVID pandemic

01:08:57.000 --> 01:09:05.000

and capitalise on opportunities here today.

01:09:05.000 --> 01:09:14.000

Thank you. Thank you for bringing the world together.

01:09:14.000 --> 01:09:21.000

We have been a signatory to this, we want people to continue to sign-on.

01:09:21.000 --> 01:09:24.000

I will try to be as brief as possible and give you things in a New York minute.

01:09:24.000 --> 01:09:30.000

I know we are running out of time.

01:09:30.000 --> 01:09:36.000

We are the epicentre in America, we have over 15,000 deaths happening.

01:09:36.000 --> 01:09:39.000

A city of 8 million, close to 1 million of those people have disabilities.

01:09:39.000 --> 01:09:44.000

We are having issues on food supplies,

01:09:44.000 --> 01:09:50.000

we have set up sites for people to pick up food.

01:09:50.000 --> 01:09:55.000

Some people with disabilities cannot get there they have compromised immune systems.

01:09:55.000 --> 01:10:01.000

We set up resources to deliver to people throughout the city.

01:10:01.000 --> 01:10:10.000

You can find the information on [NYC.gov/getfood](http://NYC.gov/getfood)

01:10:10.000 --> 01:10:17.000

people can text 311, check our website, there are lots of ways to give food to people with disabilities.

01:10:17.000 --> 01:10:23.000

We see some problems but when we hear it we correct them quickly.

01:10:23.000 --> 01:10:31.000

Another issue, people who work with disabilities to ensure they have an independent life.

01:10:31.000 --> 01:10:36.000

There are people in long-term settings, caring for the most vulnerable.

01:10:36.000 --> 01:10:41.000

We have to make sure these workers have what they need.

01:10:41.000 --> 01:10:49.000

If they don't, people disabilities will flood the hospitals.

01:10:49.000 --> 01:10:56.000

We have worked with service providers and independent living setters in New York City

01:10:56.000 --> 01:11:04.000

and healthcare providers to nature they have equipment, gloves, face shields. Masks.

01:11:04.000 --> 01:11:12.000

We want to ensure people with disabilities live the most independent life and don't get sick in those hospitals.

01:11:12.000 --> 01:11:19.000

We are doing outreach, it is important to reach out to the disabled community.

01:11:19.000 --> 01:11:25.000

We don't know it all. We talk to partners every week, a 1 PM call on Fridays.

01:11:25.000 --> 01:11:33.000

If you are in New York let us know, we would love to have you on the caller.

01:11:33.000 --> 01:11:40.000

We make it accessible with captioning and American sign language to provide the community the latest updates on COVID-19

01:11:40.000 --> 01:11:43.000

and what New York City is doing. We have different people to ensure we continue

01:11:43.000 --> 01:11:51.000

to get the latest information.

01:11:51.000 --> 01:11:56.000

In agencies we have contacts in the Change Agency.

01:11:56.000 --> 01:12:00.000

We provide them,Ä¶ What they are seeing in the community.

01:12:00.000 --> 01:12:19.000

We coordinate efforts to make sure that happens.

01:12:19.000 --> 01:12:24.000

We also, as a result of conversations we have had, we have a specific website, for resources on city resources

01:12:24.000 --> 01:12:32.000

and multiple lines of contact for people who need assistance.

01:12:32.000 --> 01:12:35.000

And we know that people are worried about facing discrimination and harassment during this pandemic.

01:12:35.000 --> 01:12:38.000

Access to care, will care be rationed.

01:12:38.000 --> 01:12:44.000

We don't want those things to happen.

01:12:44.000 --> 01:12:50.000

We want healthcare providers to think they are looking at the person and not the disability.

01:12:50.000 --> 01:13:00.000

If people feel discriminated against they can reach out to our commission on human rights,

01:13:00.000 --> 01:13:06.000

across our state Human Rights, to make your people with disabilities get the care they deserve.

01:13:06.000 --> 01:13:19.000

And people who cannot leave their home, we want them to have the support.

01:13:19.000 --> 01:13:23.000

Last then, home activities, we want to make a people have home activities, tours, museums.

01:13:23.000 --> 01:13:28.000

Our Department of education has remote learning.

01:13:28.000 --> 01:13:35.000

We make sure everything is accessible on accessible digital formats.

01:13:35.000 --> 01:13:42.000

And for kids and families who don't have resources like iPads and internet connection.

01:13:42.000 --> 01:13:50.000

The city of New York is providing that so they get the proper education they need.

01:13:50.000 --> 01:13:54.000

When we have accessible virtual meetings we make sure they are accessible and we put out digital guidelines.

01:13:54.000 --> 01:13:59.000

Which I will put out in a chat right now.

01:13:59.000 --> 01:14:04.000

I want to thank everybody right now and I hope that was a good New York City minute.

01:14:04.000 --> 01:14:15.000

>> Yes, absolutely, thank you Commissioner.

01:14:15.000 --> 01:14:21.000

I really, I appreciate you have been very honest about not being able to do everything well.

01:14:21.000 --> 01:14:27.000

But monitoring everything you know needs to happen and trying to get it right.

01:14:27.000 --> 01:14:33.000

That is the main message. One important message is the checkpoint.

01:14:33.000 --> 01:14:43.000

Those that know what they mean checking with a community, the disabled.

01:14:43.000 --> 01:14:46.000

It is a critical thing, if you look at our survey earlier about how many feel they do not know enough to act.

01:14:46.000 --> 01:14:53.000

I think it is really critical.

01:14:53.000 --> 01:15:00.000

Thank you for the input, we will come back together with you, thank you.

01:15:00.000 --> 01:15:10.000

Let us now go to, " We are remaining in the Americas.

01:15:10.000 --> 01:15:21.000

I would like to invite the director of social development.

01:15:21.000 --> 01:15:25.000

>> Good morning, everybody.

01:15:25.000 --> 01:15:30.000

It is a great pleasure to be with you.

01:15:30.000 --> 01:15:37.000

It is more than welcome to have this chance to listen to you and share experiences

01:15:37.000 --> 01:15:42.000

and hear from other cities and governments and associations who have so much to share with us.

01:15:42.000 --> 01:15:47.000

I want to share with you, "

01:15:47.000 --> 01:15:58.000

For a long time now everything concerning people with disabilities

01:15:58.000 --> 01:16:02.000

is something we have been able to work as part of the American Convention on Persons with Disabilities.

01:16:02.000 --> 01:16:11.000

everything with disabilities, rights for these people.

01:16:11.000 --> 01:16:21.000

It was an important step, we stopped looking at situations of disabilities with persons and talked about accessibility

01:16:21.000 --> 01:16:28.000

considering that disabilities are an issue which are the responsibility of local, regional governments

01:16:28.000 --> 01:16:31.000

and therefore we have to do away with barriers that get in the way of people's freedom.

01:16:31.000 --> 01:16:35.000

That is so important today.

01:16:35.000 --> 01:16:41.000

It is conditioned by their situation of disability.

01:16:41.000 --> 01:16:48.000

It is not the responsibility of the person with disabilities to remove the barriers.

01:16:48.000 --> 01:16:53.000

The barriers are in the way and the cities have to change this environment, remove these barriers.

01:16:53.000 --> 01:16:58.000

To provide access and rights to all of these individuals.

01:16:58.000 --> 01:17:05.000

And now we look at our response to the covered emergency.

01:17:05.000 --> 01:17:10.000

Let me say that we look at three critical situations.

01:17:10.000 --> 01:17:22.000

We were plunged into by this global pandemic.

01:17:22.000 --> 01:17:30.000

Access to healthcare, secondly, food security and thirdly housing. Shelter.

01:17:30.000 --> 01:17:33.000

There is a health service and we work at all different levels of healthcare.

01:17:33.000 --> 01:17:43.000

National government is a different level.

01:17:43.000 --> 01:17:57.000

The health emergency is concerned, the national system was very much stricken.

01:17:57.000 --> 01:18:05.000

It put all of its tension into hospital care to deal with the health emergency that was upon us inside the hospitals.

01:18:05.000 --> 01:18:14.000

From our point of view it was limiting access to healthcare, bearing in mind emergency situations.

01:18:14.000 --> 01:18:28.000

It was a decision by local governments to maintain access to all the healthcare situation

01:18:28.000 --> 01:18:37.000

and from the 24 clinics that we have in our urban areas, to allow access to everybody, including people furthest away from the city.

01:18:37.000 --> 01:18:40.000

So we could bridge the gap. It would be harder for them to have access to health.

01:18:40.000 --> 01:18:48.000

Now, we had to make it clear

01:18:48.000 --> 01:18:53.000

that national government was responsible for healthcare.

01:18:53.000 --> 01:18:58.000

Opening it to as many people as possible.

01:18:58.000 --> 01:19:07.000

Everyone in relation to COVID-19, we must work with staff.

01:19:07.000 --> 01:19:21.000

We manage to achieve that without producing any of the quality and quantity of the healthcare we deliver.

01:19:21.000 --> 01:19:27.000

Running to security, we know this led to a social emergency, started as a health emergency, led to a social emergency in cities.

01:19:27.000 --> 01:19:35.000

We are working to help people out of work and providing subsidies.

01:19:35.000 --> 01:19:46.000

Some people are not getting unemployment subsidies so we prepared food parcels, basic foods.

01:19:46.000 --> 01:19:55.000

From the whole range of foods available for a healthy diet, so that all of the nutritional conditions were met.

01:19:55.000 --> 01:20:00.000

For everyone in a situation where they were totally devoid of any income.

01:20:00.000 --> 01:20:13.000

It was done in different ways.

01:20:13.000 --> 01:20:29.000

Some were down, there were premises for them to come to, some were delivered to people to stop them travelling around.

01:20:29.000 --> 01:20:34.000

We want to allow people through a whole package of resources and apps

01:20:34.000 --> 01:20:37.000

that are educational and recreational and healthcare apps,

01:20:37.000 --> 01:20:41.000

to help people with disabilities.

01:20:41.000 --> 01:20:45.000

We also have a 24 seven phone helpline

01:20:45.000 --> 01:20:51.000

so people can get any kind of advice that may require.

01:20:51.000 --> 01:20:54.000

It was an outreach to the population,

01:20:54.000 --> 01:20:57.000

rather than waiting for them to come to us.

01:20:57.000 --> 01:21:04.000

It was a great opportunity

01:21:04.000 --> 01:21:12.000

for us to help people in lockdown in their houses.

01:21:12.000 --> 01:21:16.000

It enabled us to think about how we can reach out to all people, rather than waiting for them to come to us.

01:21:16.000 --> 01:21:20.000

That included awareness, barriers,

01:21:20.000 --> 01:21:25.000

and limitations for people with disabilities,

01:21:25.000 --> 01:21:30.000

so we are not putting in the responsibility on the shoulders

01:21:30.000 --> 01:21:36.000

of people with disabilities. That would be limiting their human rights.

01:21:36.000 --> 01:21:41.000

And stopping them having access to support in these terrible difficult times.

01:21:41.000 --> 01:21:44.000

>> Thank you very much, Fabiano.

01:21:44.000 --> 01:21:49.000  
I think this is our takeaway from here.

01:21:49.000 --> 01:21:54.000  
It is a way of making society appropriate.

01:21:54.000 --> 01:22:00.000  
We need to make it effective all citizens, reaching out to them,

01:22:00.000 --> 01:22:04.000  
and I am delighted you brought to the table this important idea,

01:22:04.000 --> 01:22:07.000  
not only are providing food, providing work,

01:22:07.000 --> 01:22:15.000  
but access for more things.

01:22:15.000 --> 01:22:17.000  
It is an emerging accessibility and culture to activities, entertainment  
for everybody.

01:22:17.000 --> 01:22:31.000  
It is critical.

01:22:31.000 --> 01:22:38.000  
Thank you for bringing the experiences to the table.

01:22:38.000 --> 01:22:46.000  
The last speaker of this panel, the head of participation and  
information.

01:22:46.000 --> 01:22:49.000  
We are going to hell think you. Welcome.

01:22:49.000 --> 01:22:55.000  
The floor is yours.

01:22:55.000 --> 01:23:00.000  
>> Hello, I am Joanna from Helsinki.

01:23:00.000 --> 01:23:02.000  
I just got this invitation today so I don't have so much.

01:23:02.000 --> 01:23:08.000  
I don't have much to share.

01:23:08.000 --> 01:23:14.000  
I would like to share the situation here in Helsinki.

01:23:14.000 --> 01:23:17.000  
The mayor has his meetings about COVID-19 everyday,

01:23:17.000 --> 01:23:27.000  
with other leaders of the city.

01:23:27.000 --> 01:23:31.000  
He has outlined that we should make very good cooperation at a national level,

01:23:31.000 --> 01:23:37.000  
because in some cases, the national level is making some rules

01:23:37.000 --> 01:23:43.000  
or new laws without hearing the city levels, and it has been very crucial to us

01:23:43.000 --> 01:23:47.000  
to make sure that we are following up with regulations and new laws.

01:23:47.000 --> 01:23:52.000  
But also, to inform the national level,

01:23:52.000 --> 01:24:02.000  
looking at what things are critical to the cities.

01:24:02.000 --> 01:24:07.000  
The situation has been hitting the Helsinki rather hard in Finland.

01:24:07.000 --> 01:24:13.000  
Most cases, 30 or 40%, has been found him in Helsinki.

01:24:13.000 --> 01:24:23.000  
Somehow, we are hitting the pandemic very strongly.

01:24:23.000 --> 01:24:29.000  
Some practical examples about what we have been doing here in our city.

01:24:29.000 --> 01:24:38.000  
Digitalisation is in rather high-level in Helsinki.

01:24:38.000 --> 01:24:40.000  
It is very hard for some things like residential areas

01:24:40.000 --> 01:24:45.000  
being closed.

01:24:45.000 --> 01:24:53.000  
People don't have smart phones all laptops at home.

01:24:53.000 --> 01:24:56.000  
They are not able to apply support

01:24:56.000 --> 01:24:59.000  
for financial support or apply

01:24:59.000 --> 01:25:09.000  
for income support.

01:25:09.000 --> 01:25:11.000  
Then, we had to open a new place.

01:25:11.000 --> 01:25:17.000  
Sorry, did I drop out?

01:25:17.000 --> 01:25:21.000  
>> You are still here. Please go ahead.

01:25:21.000 --> 01:25:27.000  
>> OK, sorry!

01:25:27.000 --> 01:25:35.000  
We open digital service points

01:25:35.000 --> 01:25:40.000  
to give residents access to smart phones and laptops.

01:25:40.000 --> 01:25:45.000  
This has been very helpful for elderly people.

01:25:45.000 --> 01:25:49.000  
In April, we also open Helsinki eight.

01:25:49.000 --> 01:25:58.000  
We opened it together with the parish.

01:25:58.000 --> 01:26:04.000  
The first steps we made were that we called everyone who is over 80 years old.

01:26:04.000 --> 01:26:10.000  
The second was to call people who were over 70.

01:26:10.000 --> 01:26:14.000  
We did this to check how they are doing.

01:26:14.000 --> 01:26:18.000  
Do they need any assistance?

01:26:18.000 --> 01:26:19.000  
For shopping or pharmacy

01:26:19.000 --> 01:26:22.000  
?

01:26:22.000 --> 01:26:25.000  
And several people

01:26:25.000 --> 01:26:30.000  
working for the city,

01:26:30.000 --> 01:26:36.000  
they began to work for Helsinki Aid.

01:26:36.000 --> 01:26:39.000  
It has been very successful because our employees have been very happy

01:26:39.000 --> 01:26:45.000  
to do something different in this situation.

01:26:45.000 --> 01:26:48.000  
They really feel they are doing something unique to help.

01:26:48.000 --> 01:26:52.000  
They are giving back to society.

01:26:52.000 --> 01:26:55.000  
Those were my remarks.

01:26:55.000 --> 01:26:57.000  
Please ask if you want to hear something else.

01:26:57.000 --> 01:27:00.000  
Thank you.

01:27:00.000 --> 01:27:04.000  
>> Thank you very much.

01:27:04.000 --> 01:27:09.000  
Thank you for this very humble approach.

01:27:09.000 --> 01:27:13.000  
I actually think that Helsinki is doing many, many things.

01:27:13.000 --> 01:27:18.000  
Thank you for sharing your experiences.

01:27:18.000 --> 01:27:23.000  
We look forward to continuing to collaborate in the future.

01:27:23.000 --> 01:27:25.000  
I am not going to go through all the ideas that have been shared

01:27:25.000 --> 01:27:32.000  
in this panel.

01:27:32.000 --> 01:27:39.000  
We will have the opportunity to do a rap up later on, and we will try to  
make connections.

01:27:39.000 --> 01:27:44.000  
But I think we have heard about a lot of things that have been covered  
here,

01:27:44.000 --> 01:27:50.000

and these are very helpful for your panel now, starting now,

01:27:50.000 --> 01:27:57.000

and this is what I love working for local and regional government.

01:27:57.000 --> 01:27:59.000

They are not just thinking about the government or the crisis they are facing, but the next steps.

01:27:59.000 --> 01:28:03.000

The aftermath.

01:28:03.000 --> 01:28:10.000

I think that is extremely relevant.

01:28:10.000 --> 01:28:17.000

So, Victor, it is in your hands now.

01:28:17.000 --> 01:28:34.000

>> Thank you.

01:28:34.000 --> 01:28:38.000

We couldn't have imagined that New York is a founding signatory

01:28:38.000 --> 01:28:44.000

and the frontline of this crisis.

01:28:44.000 --> 01:28:48.000

When we share experiences with São Paulo and Abu Dhabi,

01:28:48.000 --> 01:28:50.000

the factory would join with other signatories like Helsinki,

01:28:50.000 --> 01:28:56.000

and with Barcelona,

01:28:56.000 --> 01:29:02.000

to really understand how cities can learn from each other.

01:29:02.000 --> 01:29:12.000

This isn't just about what they can learn from each other but multi-stakeholder platforms.

01:29:12.000 --> 01:29:15.000

These have other stakeholders

01:29:15.000 --> 01:29:20.000

whether it is regional or national.

01:29:20.000 --> 01:29:31.000

Grassroots organisations.

01:29:31.000 --> 01:29:34.000

These work on massive initiatives or local initiatives like the San Francisco disability justice.

01:29:34.000 --> 01:29:44.000

That was a coalition to provide food and shelter.

01:29:44.000 --> 01:29:51.000

And to find links between homelessness, mental health, and economic isolation and empowerment.

01:29:51.000 --> 01:29:56.000

With that, let me jump straight into a really dynamic group of partners.

01:29:56.000 --> 01:30:04.000

We will hear from them.

01:30:04.000 --> 01:30:12.000

Maybe we will start off with my dear friend Charlotte.

01:30:12.000 --> 01:30:18.000

She has been doing many things with the World Bank on urban resilience

01:30:18.000 --> 01:30:21.000

and would you like to say a few words?

01:30:21.000 --> 01:30:37.000

The floor is yours.

01:30:37.000 --> 01:30:40.000

>> Great. Thank you so much, Victor, and thank you to the United cities and local government for the opportunity

01:30:40.000 --> 01:30:45.000

to share some of the work we are involved with.

01:30:45.000 --> 01:30:52.000

I am the Global Disability adviser to the World Bank group

01:30:52.000 --> 01:31:02.000

and I sit in the global unit and provides technical support across the bank on disability inclusion.

01:31:02.000 --> 01:31:07.000

I want to start off with a very categorical statement, that the bank is committed to striving for all aspects of disability inclusion.

01:31:07.000 --> 01:31:11.000

To make sure the skull happens, what we have done

01:31:11.000 --> 01:31:17.000

is put in place and accountability framework.

01:31:17.000 --> 01:31:21.000

That sets out a roadmap for World Bank staff on how to be more inclusive.

01:31:21.000 --> 01:31:26.000

It identifies some key entry points.

01:31:26.000 --> 01:31:32.000

Central to these is the principal around accessibility.

01:31:32.000 --> 01:31:37.000

The entire document is built off the principle of accessibility.

01:31:37.000 --> 01:31:44.000

The document also brings in a number of principles from the CRPD.

01:31:44.000 --> 01:31:49.000

Almost 18 months ago, the bank put in place a set of 10 standards.

01:31:49.000 --> 01:31:53.000

These make up the environmental social framework.

01:31:53.000 --> 01:31:58.000

This is referred to as the years her.

01:31:58.000 --> 01:32:06.000

This is important because it speaks to agree to the issue

01:32:06.000 --> 01:32:12.000

around nondiscrimination.

01:32:12.000 --> 01:32:18.000

What is important as they offer the borrower

01:32:18.000 --> 01:32:25.000

And I want to flag that as an important piece of work being done.

01:32:25.000 --> 01:32:31.000

To support framework, we have developed a good practice note on disability and nondiscrimination.

01:32:31.000 --> 01:32:35.000

This has a strong dimensional accessibility.

01:32:35.000 --> 01:32:45.000

In relation to our environment, we have 10 commitments.

01:32:45.000 --> 01:32:52.000

These were developed by our senior bank management.

01:32:52.000 --> 01:33:02.000

Our summit was held two years ago in London.

01:33:02.000 --> 01:33:11.000

Out of these 10 commitments, there are two commitments that are directly linked to the discussion today.

01:33:11.000 --> 01:33:18.000

One is to ensure that all public facilities in post design reconstruction are inclusive.

01:33:18.000 --> 01:33:22.000

The other is around a commitment for better disability and disaggregated data.

01:33:22.000 --> 01:33:33.000

I will come back to data in relation to COVID-19.

01:33:33.000 --> 01:33:51.000

But just to say, in order to monitor these commitments, we are undertaking a portfolio review of our urban projects.

01:33:51.000 --> 01:33:59.000

We can provide the technical and accessible work on inclusion.

01:33:59.000 --> 01:34:04.000

What we do and what our team does is built the analytics and evidence around disability inclusion.

01:34:04.000 --> 01:34:13.000

To this end, we have developed some very relative information.

01:34:13.000 --> 01:34:17.000

One is a popular guidance book on disability inclusion in water operations, and that obviously is very relevant today.

01:34:17.000 --> 01:34:27.000

Especially when you think about the importance of hand washing and hygiene.

01:34:27.000 --> 01:34:35.000

We have developed a guidebook on disability measurement that sets out how to better collect comparable data.

01:34:35.000 --> 01:34:39.000

And yet, it introduces the use of the Washington Group set of questions.

01:34:39.000 --> 01:34:46.000

In many ways, this is a segue to the importance of data.

01:34:46.000 --> 01:34:52.000

And the importance of lived relationships.

01:34:52.000 --> 01:34:55.000

We are delighted to be partnering with world enable and the UCL J

01:34:55.000 --> 01:35:00.000

on the survey.

01:35:00.000 --> 01:35:04.000

I would suggest you share it widely amongst your networks.

01:35:04.000 --> 01:35:08.000  
We know that data is our solution

01:35:08.000 --> 01:35:13.000  
to policies and responses.

01:35:13.000 --> 01:35:26.000  
More specifically on COVID-19 and persons with disabilities, at the bank,

01:35:26.000 --> 01:35:31.000  
We have provided technical expertise to banks.

01:35:31.000 --> 01:35:39.000  
On how to include Persons with Disabilities in various responses.

01:35:39.000 --> 01:35:45.000  
I have presented to senior bank officials for persons with disabilities  
and DPO's

01:35:45.000 --> 01:35:50.000  
given the COVID-19 situation.

01:35:50.000 --> 01:35:55.000  
We continue to host a series of chickens with colleagues at country level

01:35:55.000 --> 01:35:59.000  
to make sure we have a pulse on what is going on on the ground.

01:35:59.000 --> 01:36:04.000  
We are working closely on the education piece.

01:36:04.000 --> 01:36:07.000  
Wiener 1.3 billion children are out of school.

01:36:07.000 --> 01:36:14.000  
Many will be children with disabilities.

01:36:14.000 --> 01:36:22.000  
We are looking at work around that.

01:36:22.000 --> 01:36:27.000  
We had 3000 responses to the impact of COVID in children with disability.

01:36:27.000 --> 01:36:32.000  
This survey will become part of a larger discussion paper

01:36:32.000 --> 01:36:38.000  
which will be a Global Public Goods.

01:36:38.000 --> 01:36:43.000  
And flag around sustained coordination.

01:36:43.000 --> 01:36:51.000

I think sustained coordination means we go on after this.

01:36:51.000 --> 01:36:54.000

I'm really excited to have been asked to join a UN time bound task team

01:36:54.000 --> 01:36:58.000

Under the Secretary-General.

01:36:58.000 --> 01:37:04.000

That should be a very exciting initiative.

01:37:04.000 --> 01:37:08.000

I look forward to working with you all and learning what works and what does not work.

01:37:08.000 --> 01:37:14.000

I invite you all to take the survey.

01:37:14.000 --> 01:37:23.000

Data is going to be the solution for how we move forward. Thank you.

01:37:23.000 --> 01:37:28.000

>> Thank you, we have built such a network of multiple stakeholders from the World Bank

01:37:28.000 --> 01:37:48.000

to the cities and grassroots organisations.

01:37:48.000 --> 01:37:55.000

Your leadership with the bank and reciprocity will open up funding in terms of loans and grants.

01:37:55.000 --> 01:38:08.000

As we listen to this, localising sustainable development goals.

01:38:08.000 --> 01:38:12.000

And ensure that we have a continued engagement, as you said, with UCLG under the framework of this Global Compact.

01:38:12.000 --> 01:38:19.000

We are thinking of this as a 10 year campaign.

01:38:19.000 --> 01:38:29.000

This year focusing on COVID but in future years looking at other collaborations.

01:38:29.000 --> 01:38:36.000

And identifying ways to open up access and inclusion in urban environments.

01:38:36.000 --> 01:38:46.000

We have time for other speakers.

01:38:46.000 --> 01:38:51.000

We have a great intervention from Kristine Lange.

01:38:51.000 --> 01:39:01.000

And UNICEF.

01:39:01.000 --> 01:39:09.000

Working with UNICEF in the context of drafting and UN Convention on the rights of Persons with Disabilities.

01:39:09.000 --> 01:39:15.000

And published a book that is It Is About Ability.

01:39:15.000 --> 01:39:26.000

Now we are working on the issue of humanitarian action.

01:39:26.000 --> 01:39:29.000

So to merge its commitment and disability, child development as well as humanitarian action.

01:39:29.000 --> 01:39:35.000

The floor is yours.

01:39:35.000 --> 01:39:41.000

>> Thank you for the opportunity to be here today and learn from the speakers.

01:39:41.000 --> 01:39:48.000

It has been such a rich discussion and I'm happy to have the opportunity.

01:39:48.000 --> 01:39:51.000

While children have not been so visible in the pandemic they have been significantly impacted.

01:39:51.000 --> 01:39:56.000

Children with disabilities more so.

01:39:56.000 --> 01:39:59.000

At UNICEF we have had children with disabilities living in institutions,

01:39:59.000 --> 01:40:04.000

facing complications and death.

01:40:04.000 --> 01:40:09.000

Children with disabilities face increased risk of violence, exploitation

01:40:09.000 --> 01:40:13.000

abuse and neglect as families and households are under increased pressure

01:40:13.000 --> 01:40:19.000

and isolated from the usual support networks.

01:40:19.000 --> 01:40:29.000

And in the context of school closures children with disabilities who were already excluded from education

01:40:29.000 --> 01:40:37.000

can be further left behind as we often see the distance, remote learning programs are not accessible.

01:40:37.000 --> 01:40:47.000

Recognises this impact, UNICEF have produced two guidance notes on children with disabilities and COVID response.

01:40:47.000 --> 01:40:50.000

One of the guidance responses addresses water, sanitation and hygiene, to education, mental health, psychosocial support

01:40:50.000 --> 01:40:55.000

child protection and other services.

01:40:55.000 --> 01:41:01.000

The other notice about Persons with Disabilities as actors in response.

01:41:01.000 --> 01:41:04.000

It provides guidance on how to engage children and adults with disabilities as actors

01:41:04.000 --> 01:41:11.000

in response to COVID-19.

01:41:11.000 --> 01:41:16.000

With UNICEF as was mentioned in the introduction I work on humanitarian action.

01:41:16.000 --> 01:41:32.000

In humanitarian action we note emergencies present us with opportunities.

01:41:32.000 --> 01:41:35.000

As we heard from many speakers today the crisis has forced us to change how we look at the most honourable in communities and work.

01:41:35.000 --> 01:41:42.000

Some changes are for the better.

01:41:42.000 --> 01:41:47.000

At UNICEF we are making sure everything we do in response to COVID built a more inclusive society.

01:41:47.000 --> 01:41:51.000

I will touch on three examples as briefly as possible.

01:41:51.000 --> 01:41:56.000

Firstly, the pandemic has highlighted more than ever before

01:41:56.000 --> 01:42:00.000

children with disabilities face risks in institutions.

01:42:00.000 --> 01:42:09.000

Not just high risks of infection but abuse and neglect.

01:42:09.000 --> 01:42:13.000

In the new normal UNICEF is making a renewed commitment to ensuring every child realises the right to grow up in a family environment

01:42:13.000 --> 01:42:20.000

and families are properly supported in this.

01:42:20.000 --> 01:42:32.000

UNICEF is working to strengthen community-based services for children with disabilities,

01:42:32.000 --> 01:42:38.000

providing support to parents and working to address a lot of the stigma that leads to placement of children with disabilities in institutions.

01:42:38.000 --> 01:42:46.000

Even before the crisis children with disabilities were 10 times more likely to be out of school.

01:42:46.000 --> 01:42:57.000

We are forced to think creatively to ensure children can continue learning despite extensive school closures.

01:42:57.000 --> 01:43:03.000

In the near-normal UNICEF is working to ensure this creative thinking and investment in adapted approaches to learning

01:43:03.000 --> 01:43:07.000

extend to all aspects of education. As schools reopen we are supporting educational actors

01:43:07.000 --> 01:43:13.000

To make sure they are more inclusive of all children.

01:43:13.000 --> 01:43:20.000

For example in Uzbekistan we have supported tools for children with disabilities

01:43:20.000 --> 01:43:25.000

and from ethnic minorities that feature sign language and multiple language subtitles.

01:43:25.000 --> 01:43:29.000

We also provide print and digital resources for parents and caregivers

01:43:29.000 --> 01:43:34.000

so they can help children through daily activities.

01:43:34.000 --> 01:43:40.000

As UNICEF have seen and many families can confirm

01:43:40.000 --> 01:43:45.000

being out of school has a huge impact on children that goes beyond academic outcomes.

01:43:45.000 --> 01:43:48.000

Thirdly and lastly, throughout this crisis we have been reminded

01:43:48.000 --> 01:43:52.000

how important Access to Information is.

01:43:52.000 --> 01:44:01.000

Children thankfully have not been forgotten.

01:44:01.000 --> 01:44:08.000

We saw numerous examples of information in children friendly formats and leaders.

01:44:08.000 --> 01:44:13.000

We have seen many examples of information being made accessible to children with disabilities.

01:44:13.000 --> 01:44:21.000

Through the development of accessible and child friendly formats.

01:44:21.000 --> 01:44:27.000

For example in India UNICEF produced information about COVID-19 through videos with puppets and sign language.

01:44:27.000 --> 01:44:36.000

This was done using local resources without access to a basic studio setup.

01:44:36.000 --> 01:44:40.000

I personally have not seen this level of commitment to accessible information in any other emergency I have been involved in.

01:44:40.000 --> 01:44:43.000

I am hopeful that this will become the new standard

01:44:43.000 --> 01:44:49.000

and this will become the new normal.

01:44:49.000 --> 01:44:55.000

We have seen throughout the crisis it is possible in more challenging and resource constrained settings

01:44:55.000 --> 01:45:01.000

to ensure information is provided in accessible and child friendly formats.

01:45:01.000 --> 01:45:06.000

We hope that this will become the standard way of doing business.

01:45:06.000 --> 01:45:08.000

I have aimed to be very brief. These are just examples.

01:45:08.000 --> 01:45:12.000  
There are many more.

01:45:12.000 --> 01:45:15.000  
As UNICEF we look forward to working with all of you

01:45:15.000 --> 01:45:20.000  
so children with disabilities are not left behind.

01:45:20.000 --> 01:45:24.000  
We need to make your everything we do as a response to the crisis

01:45:24.000 --> 01:45:29.000  
contributes to this goal and we realise every opportunity

01:45:29.000 --> 01:45:32.000  
to build more inclusive communities and server systems.

01:45:32.000 --> 01:45:37.000  
Thank you for the opportunity.

01:45:37.000 --> 01:45:43.000  
>> Thank you so much, Kristine.

01:45:43.000 --> 01:45:53.000  
The work that UNICEF does with cities is important.

01:45:53.000 --> 01:46:06.000  
We work together at the World Enabled Forum with colleagues.

01:46:06.000 --> 01:46:17.000  
it is really important to think about the multigenerational solidarity  
which develops with accessibility.

01:46:17.000 --> 01:46:25.000  
I want all of us to be able to contribute our talents and benefit what  
the city has to offer.

01:46:25.000 --> 01:46:31.000  
We have two other participants that have given me the word to share with  
you.

01:46:31.000 --> 01:46:34.000  
I will share two of the perspectives from partners.

01:46:34.000 --> 01:46:45.000  
One very important.

01:46:45.000 --> 01:46:59.000  
The general,Ä¶ There is to Professor, University of Pennsylvania.

01:46:59.000 --> 01:47:06.000

And she really wants to stress the importance of stakeholder partnerships around inclusion and accessibility.

01:47:06.000 --> 01:47:13.000  
The pandemic.

01:47:13.000 --> 01:47:19.000  
Understanding the lifestyles, preferences and contexts

01:47:19.000 --> 01:47:25.000  
within different communities are experiencing the pandemic.

01:47:25.000 --> 01:47:32.000  
The only way to create an inclusive response is to look at the intersections.

01:47:32.000 --> 01:47:39.000  
And all the major stakeholder groups. Whether women with disabilities, children with disabilities,

01:47:39.000 --> 01:47:44.000  
older persons, and their impact as well as other groups.

01:47:44.000 --> 01:47:50.000  
How is the private sector thinking.

01:47:50.000 --> 01:47:56.000  
Ultimately thinking about partnerships.

01:47:56.000 --> 01:48:05.000  
Like we're building with UNICEF.

01:48:05.000 --> 01:48:09.000  
It is helping us with a platform,

01:48:09.000 --> 01:48:13.000  
to have learning and build a community.

01:48:13.000 --> 01:48:19.000  
It creates these policies and programs.

01:48:19.000 --> 01:48:24.000  
The other partner that we have as a private sector.

01:48:24.000 --> 01:48:40.000  
We have been working closely with several private sector leaders.

01:48:40.000 --> 01:48:51.000  
They will be sponsoring the development in video and a social media campaign.

01:48:51.000 --> 01:48:54.000  
So empowering cities, that story, and working with the habitat, with Emilia, will be featured in a short video.

01:48:54.000 --> 01:49:01.000  
It will be launched in June.

01:49:01.000 --> 01:49:11.000  
It will elevate the visibility of our collective efforts.

01:49:11.000 --> 01:49:16.000  
Those were the interventions for this part of the webinar

01:49:16.000 --> 01:49:22.000  
on building multi-stakeholder partnerships.

01:49:22.000 --> 01:49:29.000  
But coming towards the end, Å¶ Of the webinar.

01:49:29.000 --> 01:49:33.000  
I want to share to the joint audience the things we have planned for the next year.

01:49:33.000 --> 01:49:39.000  
Does that sound good, Emilia?

01:49:39.000 --> 01:49:43.000  
>> Absolutely, we will do a wrapup in a moment, Victor.

01:49:43.000 --> 01:49:50.000  
It would be good for you to start with a roadmap.

01:49:50.000 --> 01:49:56.000  
I would then like to give the floor to the general secretary he is committed to this topic.

01:49:56.000 --> 01:49:59.000  
And then one of the biggest cities of the world.

01:49:59.000 --> 01:50:02.000  
The floor is yours, Victor.

01:50:02.000 --> 01:50:05.000  
>> Excellent.

01:50:05.000 --> 01:50:09.000  
I will share my screen now.

01:50:09.000 --> 01:50:15.000  
To provide a little bit more context.

01:50:15.000 --> 01:50:18.000  
As to how our efforts over the last few months

01:50:18.000 --> 01:50:25.000  
have brought us to where we are today.

01:50:25.000 --> 01:50:28.000

And the context that allows us to really leverage the unique capabilities

01:50:28.000 --> 01:50:33.000

and experiences.

01:50:33.000 --> 01:50:41.000

A lot of this is really about building back better.

01:50:41.000 --> 01:50:47.000

Can a joint effort bring the webinar series access to the UCLG.

01:50:47.000 --> 01:50:58.000

And in partnership with UN Habitat, it is very valuable.

01:50:58.000 --> 01:51:06.000

The lessons we will share today, a network we have developed.

01:51:06.000 --> 01:51:10.000

Support and different knowledge partners.

01:51:10.000 --> 01:51:12.000

University of California, Berkeley.

01:51:12.000 --> 01:51:18.000

And responses here as well.

01:51:18.000 --> 01:51:44.000

As you can see this is unprecedented

01:51:44.000 --> 01:51:51.000

I serve on the UN committee.

01:51:51.000 --> 01:51:56.000

It's all about the Rights of Persons with Disabilities and how they can connect

01:51:56.000 --> 01:52:01.000

the knowledge in our understanding of how local efforts

01:52:01.000 --> 01:52:09.000

Inc is perspectives.

01:52:09.000 --> 01:52:15.000

There are over 4 million confirmed cases.

01:52:15.000 --> 01:52:22.000

Hundreds of thousands of deaths, really impacted people with disabilities.

01:52:22.000 --> 01:52:30.000

We heard that from our distinguished panellists.

01:52:30.000 --> 01:52:36.000

We are really thinking about Sigma Tories, almost 20 of them,

01:52:36.000 --> 01:52:38.000

which, ÅŒ Barcelona has signed, New York, Abu Dhabi,

01:52:38.000 --> 01:52:43.000

S√Œo Paulo,

01:52:43.000 --> 01:52:48.000

looking at different strategies and their own impact.

01:52:48.000 --> 01:52:58.000

We are looking at how we can add value to these discussions.

01:52:58.000 --> 01:53:06.000

The agenda for our network is to really ensure that we have continued advocacy and engagement.

01:53:06.000 --> 01:53:14.000

Want to share lived experience and matching shoes with this.

01:53:14.000 --> 01:53:17.000

We have to strengthen coordination amongst different stakeholders.

01:53:17.000 --> 01:53:25.000

Like with the World Bank.

01:53:25.000 --> 01:53:28.000

Ultimately, we need to understand what we have heard in these discussions.

01:53:28.000 --> 01:53:34.000

Understand actionable responses.

01:53:34.000 --> 01:53:38.000

To address that, we have two new things that will be launching.

01:53:38.000 --> 01:53:42.000

We will be launching these together in the next few weeks.

01:53:42.000 --> 01:53:47.000

One is this global survey.

01:53:47.000 --> 01:53:51.000

Inclusive, pandemic response.

01:53:51.000 --> 01:53:54.000

We will have the link here in the chat.

01:53:54.000 --> 01:54:06.000

We will also be sharing this tomorrow.

01:54:06.000 --> 01:54:12.000

The global accessibility awareness Day is tomorrow.

01:54:12.000 --> 01:54:13.000  
As well as

01:54:13.000 --> 01:54:19.000  
the fact we are launching open documents to be cocreated with cities

01:54:19.000 --> 01:54:26.000  
on a actionable recommendations forinclusive pandemic response.

01:54:26.000 --> 01:54:31.000  
So, those are the ways to address the data gap.

01:54:31.000 --> 01:54:37.000  
We can address the knowledge. The knowledge gap.

01:54:37.000 --> 01:54:50.000  
We want to create a knowledge map.

01:54:50.000 --> 01:54:55.000  
This is ultimately, the equity and access webinar series that we are now concluding

01:54:55.000 --> 01:55:02.000  
is an important part of the multistage project.

01:55:02.000 --> 01:55:09.000  
That launched with the global compact.

01:55:09.000 --> 01:55:19.000  
Kim there was this idea of stimulating and implementing evidence-based policies.

01:55:19.000 --> 01:55:23.000  
This particular year dramatically focused on the pandemic.

01:55:23.000 --> 01:55:27.000  
So, we completed the webinars.

01:55:27.000 --> 01:55:33.000  
We're now going into phase 2.

01:55:33.000 --> 01:55:40.000  
That is going to lead us to phase 3 down below.

01:55:40.000 --> 01:55:46.000  
We will be able to collaboratively develop the trainer model.

01:55:46.000 --> 01:55:51.000  
As well as tools and other guidance that city can take.

01:55:51.000 --> 01:55:58.000  
We want to really empower and have people know with confidence

01:55:58.000 --> 01:56:03.000

other programs will cause more access and inclusion.

01:56:03.000 --> 01:56:07.000

It is really important that we realise that these are actions

01:56:07.000 --> 01:56:10.000

which are about coming together and ensuring

01:56:10.000 --> 01:56:18.000

that local governments know what to do.

01:56:18.000 --> 01:56:26.000

This is why I am so proud of the leadership.

01:56:26.000 --> 01:56:30.000

And the joint declaration

01:56:30.000 --> 01:56:38.000

that we have published together.

01:56:38.000 --> 01:56:47.000

We have been hosting that with the UN to ensure there is a focus of local pandemic response.

01:56:47.000 --> 01:56:53.000

Some of the editing things, I will not go into details, but the survey has had 250 respondents.

01:56:53.000 --> 01:57:03.000

We see a good representation and insights from different areas.

01:57:03.000 --> 01:57:14.000

We can see how cities are looking at various statements.

01:57:14.000 --> 01:57:23.000

Most people feel they are facing some contamination.

01:57:23.000 --> 01:57:31.000

There are specific initiatives to make sure you can afford some of these challenges.

01:57:31.000 --> 01:57:38.000

Ultimately, as our opening speakers said, this is really a long-term transformation.

01:57:38.000 --> 01:57:44.000

I am being frank about what we have done well and what we need to do better.

01:57:44.000 --> 01:57:48.000

The efforts we are rendered taken, whether it is in Abu Dhabi,

01:57:48.000 --> 01:57:54.000

whether it is the Dubai disability strategy,

01:57:54.000 --> 01:58:01.000  
or São Paulo, or New York.

01:58:01.000 --> 01:58:10.000  
It is really about sharing those experiences.

01:58:10.000 --> 01:58:18.000  
Ultimately, knowing that those are going to be the ways that we can make more progress to the others.

01:58:18.000 --> 01:58:22.000  
So, the learning groups that we created, you can take a photo of this

01:58:22.000 --> 01:58:22.000  
and you can join, A

01:58:22.000 --> 01:58:29.000  
>> One more minute, V.

01:58:29.000 --> 01:58:32.000  
>> These other learning groups we have had for city partners to join.

01:58:32.000 --> 01:58:35.000  
You can share experiences.

01:58:35.000 --> 01:58:39.000  
You can learn about how to make more progress.

01:58:39.000 --> 01:58:42.000  
We will share this with all of our colleagues.

01:58:42.000 --> 01:58:49.000  
Even though we are closing the webinars

01:58:49.000 --> 01:58:54.000  
the community and dialogue is working together.

01:58:54.000 --> 01:59:01.000  
(inaudible)

01:59:01.000 --> 01:59:14.000  
the floor is yours.

01:59:14.000 --> 01:59:15.000  
>> It is OK. Do you listen to me?

01:59:15.000 --> 01:59:20.000  
Yes.

01:59:20.000 --> 01:59:27.000  
First, I think that

01:59:27.000 --> 01:59:31.000  
iin the spirit of the Justice,

01:59:31.000 --> 01:59:35.000  
for me, it is very important to recognise the great initiative

01:59:35.000 --> 01:59:37.000  
of work enabled

01:59:37.000 --> 01:59:41.000  
leadership

01:59:41.000 --> 01:59:47.000  
of (inaudible).

01:59:47.000 --> 01:59:51.000  
I think that our experience in the web seminar

01:59:51.000 --> 01:59:55.000  
and the series of seminars,

01:59:55.000 --> 02:00:00.000  
they are very, very important.

02:00:00.000 --> 02:00:05.000  
On the other hand,

02:00:05.000 --> 02:00:08.000  
the coordination of the cities for all,

02:00:08.000 --> 02:00:11.000  
his very relevant because,

02:00:11.000 --> 02:00:14.000  
from this network,

02:00:14.000 --> 02:00:17.000  
we can get genuine input

02:00:17.000 --> 02:00:22.000  
to local governments

02:00:22.000 --> 02:00:29.000  
and cities and government organisations.

02:00:29.000 --> 02:00:33.000  
(inaudible)

02:00:33.000 --> 02:00:44.000  
this is the spirit of CRPD.

02:00:44.000 --> 02:00:46.000  
I think this is a great thing for this work,

02:00:46.000 --> 02:00:49.000  
and finally,

02:00:49.000 --> 02:00:55.000  
I think that it is very important

02:00:55.000 --> 02:00:57.000  
to count with all persons

02:00:57.000 --> 02:01:03.000  
(inaudible)

02:01:03.000 --> 02:01:08.000  
and other friends in the progress for cities

02:01:08.000 --> 02:01:14.000  
because I think

02:01:14.000 --> 02:01:19.000  
it is a real advantage, real purpose now,

02:01:19.000 --> 02:01:29.000  
and for the future in the 21st-century.

02:01:29.000 --> 02:01:34.000  
Thank you very much, and you will find a statement in the website of the  
United Nations.

02:01:34.000 --> 02:01:34.000  
Thank you very much.

02:01:34.000 --> 02:01:39.000  
>> Thank you very much, Special Envoy,

02:01:39.000 --> 02:01:43.000  
for those words and the commitment to continue that partnership.

02:01:43.000 --> 02:01:54.000  
And to also make the joint statement broadly known.

02:01:54.000 --> 02:01:56.000  
Wrapup remarks from the other big partner of this series?

02:01:56.000 --> 02:02:02.000  
>> OK.

02:02:02.000 --> 02:02:10.000  
We will try to be very brief because it has been a long session.

02:02:10.000 --> 02:02:13.000  
I think throughout all the learning that we have had so far,

02:02:13.000 --> 02:02:17.000  
all the sessions, whatever rights,

02:02:17.000 --> 02:02:20.000  
especially today, we were really talking about rights.

02:02:20.000 --> 02:02:25.000  
Rights, equity and freedom.

02:02:25.000 --> 02:02:29.000  
It is clear what is coming from other participants,

02:02:29.000 --> 02:02:34.000  
that if we want equity, we need access.

02:02:34.000 --> 02:02:38.000  
These go hand-in-hand,

02:02:38.000 --> 02:02:42.000  
and this has been highlighted by all the speakers in different ways.

02:02:42.000 --> 02:02:47.000  
I think this pandemic, from what I have heard,

02:02:47.000 --> 02:02:51.000  
has created a paradox because, on one hand,

02:02:51.000 --> 02:02:54.000  
in certain cities, all these people, all the people with disabilities,

02:02:54.000 --> 02:02:57.000  
and other people,

02:02:57.000 --> 02:03:02.000  
they have become invisible because of the lockdown.

02:03:02.000 --> 02:03:08.000  
At the same time, many people are discovering that their neighbours

02:03:08.000 --> 02:03:14.000  
had some kind of disabilities, and discovering that all people were  
living next door.

02:03:14.000 --> 02:03:18.000  
Maybe there is an opportunity to discover who is around

02:03:18.000 --> 02:03:21.000  
and all the people here knew it, but

02:03:21.000 --> 02:03:28.000  
the wider spectrum of people,

02:03:28.000 --> 02:03:32.000  
well, there are people with disabilities, and it is not a homogeneous  
group.

02:03:32.000 --> 02:03:36.000

We forget that were making policies and services.

02:03:36.000 --> 02:03:42.000

This is one of the issues we have discovered with the pandemic.

02:03:42.000 --> 02:03:47.000

Our services were not ready, even in the most inclusive cities.

02:03:47.000 --> 02:03:56.000

We thought we were ready to include all people.

02:03:56.000 --> 02:04:05.000

There were many examples and issues of accessing drugs and self public services, mobility.

02:04:05.000 --> 02:04:12.000

Disabled people have been the most disadvantaged.

02:04:12.000 --> 02:04:16.000

The way we are making policies and the way we are delivering public services to all cities,

02:04:16.000 --> 02:04:19.000

we need to ensure no one is left behind.

02:04:19.000 --> 02:04:24.000

It is also an opportunity as well.

02:04:24.000 --> 02:04:27.000

For a transformation in the way that we have planned our cities,

02:04:27.000 --> 02:04:34.000

and the way we want to plan our cities,

02:04:34.000 --> 02:04:38.000

there are situations around access to public space and services.

02:04:38.000 --> 02:04:40.000

We have to develop public spaces accessible to everybody.

02:04:40.000 --> 02:04:46.000

Mobility.

02:04:46.000 --> 02:04:52.000

We are talking about mobility. What will be the needs of this new pattern?

02:04:52.000 --> 02:04:58.000

Will we develop and take into account the needs of all people with disabilities in our cities?

02:04:58.000 --> 02:05:02.000

This is something that many people are thinking about.

02:05:02.000 --> 02:05:06.000

As well, other issues like housing.

02:05:06.000 --> 02:05:09.000

Not everybody has adequate housing.

02:05:09.000 --> 02:05:14.000

Especially people with disabilities.

02:05:14.000 --> 02:05:18.000

They are not adapted and have to spend a lot of time at home.

02:05:18.000 --> 02:05:31.000

I am going back to this paradox.

02:05:31.000 --> 02:05:36.000

It is showing all the contradictions of the system we had before.

02:05:36.000 --> 02:05:41.000

It is showing the changes we need to introduce with the city.

02:05:41.000 --> 02:05:45.000

We build public policies and the way we deliver public services.

02:05:45.000 --> 02:05:47.000

Thank you, Emilia, and thank you to all.

02:05:47.000 --> 02:05:53.000

>> Thank you.

02:05:53.000 --> 02:05:59.000

Thank you, Victor, you continue to be our guru.

02:05:59.000 --> 02:06:03.000

You have brought together a very impressive set of partners.

02:06:03.000 --> 02:06:09.000

My trust is with that set of partners.

02:06:09.000 --> 02:06:16.000

We will be able to make a big difference in how local and regional governments around the world

02:06:16.000 --> 02:06:18.000

understand accessibility. It is what was being shared with arse.

02:06:18.000 --> 02:06:23.000

It is about rights.

02:06:23.000 --> 02:06:31.000

It is also a lot about service provision.

02:06:31.000 --> 02:06:39.000

I just want to quote some of the reflections going on in the chat.

02:06:39.000 --> 02:06:45.000

A lot of the dramatic experiences that have been shared from Buenos Aires about access to water

02:06:45.000 --> 02:06:55.000

and the impact of the disabled are related to that we underestimate

02:06:55.000 --> 02:06:59.000

what some of the service provisions outside of health are doing for our health services.

02:06:59.000 --> 02:07:03.000

We need to change that.

02:07:03.000 --> 02:07:07.000

And we need to keep learning and keep sharing.

02:07:07.000 --> 02:07:11.000

On that note I will SASE you all soon.

02:07:11.000 --> 02:07:18.000

Let's keep working together.

02:07:18.000 --> 02:07:21.000

People are requesting,Ä¶

02:07:21.000 --> 02:07:26.000

Let's keep at it, please.

02:07:26.000 --> 02:07:29.000

Keep healthy, keep calm and keep creative.

02:07:29.000 --> 02:07:31.000

Victor, take care.

02:07:31.000 --> 02:07:37.000

Thank you.

02:07:37.000 --> 02:07:43.000

>> From UCLG,Ä¶

02:07:43.000 --> 02:07:46.000

>> From Uganda, I am grateful for this important meeting.

02:07:46.000 --> 02:07:48.000

>> Thanks everyone.
