#BeyondTheOutbreak
As a transversal axis in district management
Digital Technologies in the COVID 19 emergency

Three challenges and/or solutions that characterize the use of digital technologies during the COVID 19 emergency:

- **Donation and solidarity platforms**
  - [http://bogotasolidariaencasa.gov.co](http://bogotasolidariaencasa.gov.co)
  - [https://bogota.gov.co/mi-ciudad/bogota-solidaria](https://bogota.gov.co/mi-ciudad/bogota-solidaria)

- **Virtual Education**

- **Open Data and Data Analytics for better decision-making**
Learning from the crises

1. Transparency and technology must be considered essential.

2. With a strategic use of technology you could reduce inequality in citizen care.

3. Data analytics should be considered as a driver to improve citizen services and optimize public and private sector strategies.

4. Security and privacy measures should be implemented.
THANK YOU!
