

UCLG COMMITTEES AND WORKING GROUPS

UCLG COMMITTEE ON URBAN STRATEGIC PLANNING

CIRCULAR 1

The set-up of the Urban Strategic Planning Committee was approved by the Executive Bureau held in Jeju in October 2007.

The main purpose of the Committee is to integrate urban strategic planning to local policy processes of economic and social development of the participating cities. The Committee will also dedicate efforts to creating spaces for discussion, exchange, dissemination of lessons-learned and technical exchange, and facilitate the visibility and worldwide appreciation of management experiences that, thanks to the integration of urban strategic planning, have accomplished significant urban transformation.

It is my pleasure to invite you to the launching of the Urban Strategic Planning Commission (USP Commission) to be held in Porto Alegre, Brazil, Feb. 13th 2008, on the occasion of the World Conference on Development of Cities. The event will take place in Building 41, Hall 704 – PUC, at 13:00.

Yours sincerely,

Miguel Lifschitz
City Mayor of Rosario
USP Committee Chair
