

June 2021

Local4Action HUB BILBAO

Cities of Values

METHODOLOGY

Methodology

Non-presential work of the cities participating in the Local4action HUB BILBAO, through the reflection, completion and sending of forms created specifically for the theme proposed for each Forum.

If the global health context and/or convenience suggests it, the Forums could be held in person.

Reflection, experience sharing and consensus decision-making in the online synchronous sessions of the Forums.

There will be an online platform/site where all participants can access all relevant information, and where documents and results will be shared throughout the process.
