#BeyondTheOutbreak
Both at the National and Local levels:

- Less trust in religious organizations because of the explosion of Covid-19 cases by a secretive Christian sect from for a month from 19 February, and then further spread by big Protestant churches which continued to have Sunday services.
- More trust in the government, which has effectively constrained the outbreak with democratic management and without lockdown.
Building Trust & Collaborative Attitude

Three challenges and/or solutions related to culture in the COVID-19 emergency

- Soladarity with Daegu with many patients:
  - Sent health workers and emergency vehicles
  - Accepted Covid-19 patients in Gwangju hospitals

- Social distance without lockdown:
  - Cancelled May 18 Movement Commemoration
  - Parliamentary election on 15 April

- Helping vulnerable groups
  - Financial support
  - Childcare support
We learned that the civilization is vulnerable
- Cultural events are not simply entertainments: we need to learn to collaborate in the community: local or global
- We need to pay attention to the good governance among central and local governments, civil society and private sector
THANK YOU!
