JOIN THE UCLG NETWORK!

UCLG World Council, November 2010, Mexico City
United Cities and Local Governments (UCLG) is the world organization of local and regional governments and their associations, representing and defending their interests on the world stage.

An inheritor of the century-old International Municipal Movement, UCLG was created in 2004 when local and regional authorities across the world decided to unite their voices before the international community.

UCLG facilitates the work of the Global Taskforce of Local and Regional Governments, which gathers over 30 networks active at international level.

REPRESENTING THE VOICE OF LOCAL COMMUNITIES
The more united local governments are at national, regional and world levels, the stronger they are in voicing the will of the communities they serve.
