

14-18 March 2015  
Sendai, Japan

## Local Authorities Roundtable

**March 13 (Friday), 1500-1800 Sendai International Centre, 2F, Room 1&2**

The Third United Nations World Conference on Disaster Reduction (WCDRR) will take place from 14 to 18 March in Sendai, Japan, where an agreement on post-2015 framework for disaster risk reduction will be adopted. This framework will guide and support our collective efforts to build resilient nations and communities to disasters. All the stakeholders committed to disaster risk reduction and resilience will gather in Sendai.

To address the gap in local implementation of HFA 2005-2015, UNISDR launched the Making Cities Resilient Campaign in 2010 and has developed a global network of local governments committed to reducing risk and building more resilient cities with the support of LG organizations such as ICLEI and UCLG. These local government bodies represent cities of different sizes, characteristics, risk profiles and locations. Their efforts are reinforced by a supportive group of partner organizations. Through high profile media and public awareness activities, the campaign has helped to build a strong sense of political commitment among local governments to reduce disaster risk and address climate change adaptation. A successful campaign of implementation of the Ten essentials was conducted in several regions of the world.

Taking into account the experience gained through the implementation of the HFA, and in pursuit of the expected outcome and goal, laid in the post-2015 framework for disaster risk reduction, there is a need for accelerated and focused action across sectors by local and national governments, in the following priority areas:

- 1) Understanding disaster risk;
- 2) Strengthening governance and institutions to manage disaster risk;
- 3) Investing in economic, social, cultural and environmental resilience;
- 4) Enhancing preparedness for effective response, and building back better in recovery and reconstruction.

Recognizing the pivotal role of local and regional government in urban risk reduction and resilience building and given the multiple efforts underway to support local governments in their adaptation and resilience efforts, the post 2015 framework for disaster risk reduction provides a much-needed opportunity by calling for following actions:

### 1. Governance and capacity building

- Build the capacity of local government officials;
- Adopt and implement national and local plans;
- Strengthen mechanisms to monitor, periodically assess, ensure compliance, and publicly report on progress on national and local plans;
- Establish or further strengthen all-stakeholder coordination mechanisms at national and local levels, such as national and local platforms for disaster risk reduction;
- Strengthen policy, technical and institutional capacities in local and national disaster risk management, including those related to technology, training, and human and material resources;

### 2. Legal and institutional framework

- Promote the coherence of, and further develop as appropriate, national and local frameworks of law, regulation and public policy, including for development, poverty reduction, climate change adaptation and environmental management, which through defining roles and responsibilities guide the public sector in: (i) addressing disaster risk in publically owned, managed or regulated services and infrastructure, and (ii) regulate and provide incentives for actions by persons, households, communities and businesses;
- Encourage the revision of existing or the development of new building codes, standards, rehabilitation and reconstruction practices at the national or local levels, as appropriate, with the aim of making them more applicable in the local context, particularly in informal human settlements, and reinforce the capacity to implement, monitor and enforce such codes, including through a consensus-based approach;

14-18 March 2015  
Sendai, Japan

- Protect or support the protection of museums and other sites of historical, cultural and religious interest, as well as of work places;

### 3. Planning

- Give land-use policy development and implementation, including urban planning, informal and non-permanent housing, special attention due to their direct impact on risk exposure;
- Promote the incorporation of disaster risk assessment into rural development planning and management, in particular with regard to mountain and coastal flood plain areas, including through the identification of land zones that are available and safe for human settlement;

### 4. Finance

- Empower, through regulatory and financial means, local action and leadership in disaster risk management by local authorities;
- Allocate resources at all levels of administration for the development and the implementation of disaster risk reduction policies, plans, laws and regulations in all relevant sectors;
- Strengthen public investments in critical facilities and physical infrastructures, particularly disaster prevention and reduction structural measures, schools, clinics, hospitals, water and power plants, communications and transport lifelines, disaster warning and management centers through proper design, including the Principles of Universal Design, building better from the start, retrofitting and re-building, taking into account economic, social, and environmental impact assessments.
- Adopt public policies and establish coordination and funding mechanisms and procedures to plan and prepare for post-disaster recovery and reconstruction;
- Ensure the engagement of diverse institutions, multiple authorities and stakeholders at all levels, in view of the complex and costly nature of post-disaster reconstruction;
- Review existing financial and fiscal instruments in order to support risk-sensitive public and private investments;

### 5. Monitoring

- Promote and use voluntary and self-initiated peer reviews among countries and local governments;
- Development of monitoring mechanisms that support national and local monitoring.

### About the meeting:

Keeping in view the expected outcomes of WCDRR and the focus on accelerated implementation at local level, ICLEI, UCLG, UNISDR and partners of the Making Cities Resilient Campaign will organize a local authorities roundtable on 13 March from 1500 to 1800 at Sendai International Centre room 1 & 2. The purpose of this meeting is:

- discuss the implementation of post-2015 framework disaster risk reduction at local level
- and to agree and endorse the declaration of mayors.

**Attendees:** Participants are all local government and partners of the Making Cities Resilient Campaign.

**Language:** English, French and Spanish

**Room Capacity:** 100 (Roundtable with two rows of 48 seats )

14-18 March 2015  
Sendai, Japan

**Facilitated by :** Mohamed Boussraoui (UCLG), Yunus Arikan (ICLEI) and Abhilash Panda (UNISDR)

Time	Discussion points	Speakers
1500-1505	Welcome	Mr. Ito Yukimoto, Vice Mayor of Sendai
1505-1515	Opening Remarks	Ms. Margareta Wahlstrom, UN SRSG for Disaster Risk Reduction
1515-1520	Appointment of Vigiaano as Role Model City	
1520-1525	Joining of Tagajo City to the Making Cites Resilient Campaign	
1525-1535	Overview of the WCDRR	By Mr. Yunus Arikan, ICLEI
1535-1605	Endorsement of the Local Governments Declaration	Ms. Violeta Seva, Advisor to Makati and Mohamed Boussraoui , UCLG
1605-1615	'New' Ten Essentials for Making Cities Resilient	Mr. Piet Sleeking, Vice Mayor of Dordrecht, The Netherlands
1615-1645	Presentations by cities on the implementation of New "Ten Essentials"	
	Cebu, Philippines	Mr. Michael Rama, Mayor
	Soest, Netherlands	Mr. Robert Metz, Mayor
	Tehran, Iran	Mr. Abbas Ostadtaghizadeh, TDMMO
	Fredericton, Canada	Mr. Bradley Stanford Woodside, Mayor
	Cali ,Colombia	Mr. Henry Peralta, Advocate
1645-1715	Presentations by partners	
	ECOSFYs – Mayors ADAPT and linkages with Making Cities Resilient Campaign	Ms. Sarah Hendel-Blackford, Senior Consultant, Ecofys
	PeaceBoat – Advocating for local resilience	Mr. Takashina Yamamoto, President Peace Boat's Disaster Relief Volunteer Centre
	Urban Planning Advisory Group – Delivering the urban challengers	Ms. Ebru Gencer, Executive Director, Center for Urban Disaster Risk Reduction and Resilience and UPAG
	ISO 37120 - Indicators for city services and quality of life	Mr. Nico Tillie, World Council for City Data
1735-1745	Themed issue of the "International Journal of Disaster Resilience" on "the State of DRR at local level report" and the best papers award	Ms. Dilanthi Amaratunga, University of Huddersfield
1745-1750	Remarks on HABITAT III	Mr. Dan Lewis, UN-Habitat
1750-1755	Closing remarks on behalf of ICLEI	Mr. George Heartwell, Mayor of Grand Rapids, Michigan, USA
1755-1800	Closing remarks on behalf of UCLG	Ms. Ms Illiza Saaduddindjama, Mayor of Banda Ache
