

**AMENDMENTS FROM THE LOCAL AND SUBNATIONAL GOVERNMENTS  
TO THE PROPOSED GOALS AND TARGETS ON SUSTAINABLE DEVELOPMENT  
FOR THE POST-2015 DEVELOPMENT AGENDA**

**Proposed goal 1. End poverty everywhere**

- 1.1 by 2030 secure equal access for all men and women, particularly those most in need, to basic services, the right to access land and property, productive resources and financial services, including microfinance
- 1.a. ensure significant mobilization of resources from a variety of sources to provide adequate and predicable means to implement programmes and policies at national and local and sub-national level to end poverty in all its dimensions
- 1.b Create sound policy frameworks, at local, national, regional and international levels, based on pro-poor participatory development strategies to ensure accelerated investments in poverty eradication actions

**Proposed goal 2. End hunger, improve nutrition, and promote sustainable agriculture**

- 2.a increase investment in sustainable rural infrastructure, agricultural research, technology development, and capable institutions at all levels, particularly in countries that are net food importers

**Proposed goal 4. Provide quality education and life-long learning opportunities for all**

- 4.6 by 2030 integrate into education programs knowledge and skills necessary for sustainable development, human rights, good governance, gender equality, promoting a culture of peace and non-violence and culture's contribution to sustainable development

**Proposed goal 6. Ensure availability and sustainable use of water and sanitation for all**

- 6.1 by 2030, achieve universal access to safe and affordable drinking water for all, adapted to urban and rural environments.

Comment: access to safe and affordable water defers in urban and rural contexts. Consider when defining indicators.

- 6.5 by 2030 implement integrated water resources management by accountable and capable institutions at all levels, and through transboundary cooperation as appropriate
- 6.a by 2030, expand international cooperation and support in water and sanitation related technologies and management, including water harvesting and desalination technologies and wastewater treatment, recycling and reuse technologies

**Proposed goal 9. Promote sustainable infrastructure and industrialization and foster innovation**

9.1 support the development of quality, reliable, safe, sustainable and resilient infrastructure for energy, water, waste management, transport, ports and ICT, with a focus on affordable access for all, through capacity development of accountable institutions at all levels

**Proposed goal 10. Reduce inequality within and between countries**

10.2 by 2030 take actions to empower and promote the social, political and economic inclusion of all irrespective of race, ethnicity or economic status—, both at national and local and sub-national level.

10.3 reduce inequalities of opportunity and outcome, including through eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and actions in this regard at all levels

10.4 progressively adopt policies especially fiscal policies to promote greater equality both at national and local and sub-national level

**Proposed goal 11. Make cities and human settlements inclusive, safe and sustainable**

11.1 ~~by 2030, ensure universal access to adequate and affordable housing and basic services for all, eliminate slums and upgrade informal settlements~~

Alt. 11.1 “By 2030, ensure universal access to adequate and affordable housing and basic services for all, eliminate slums and upgrade informal settlements by working with inhabitants”

~~11.2 by 2030, provide access to safe, affordable, accessible and sustainable transport for all, and expand public transport~~

Alt. 11.2 Provide universal access to safe public spaces, affordable, accessible and sustainable transport for all.

~~11.3 11.2 enhance capacities for integrated and sustainable human settlement planning and management for all, and reduce urban sprawl~~

Alt. 11.3: enhance capacities for participatory, integrated and sustainable human settlement planning and management for all, improving urban resilience and reducing urban sprawl”

11.a integrate economic and social links between urban, peri-urban and rural areas into local, national and regional development planning

11.c support least developed countries, including through financial and technical assistance, for sustainable buildings and resilient basic infrastructures, particularly for the poor, utilizing local content and materials

NEW -11.d by 2030 promote cultural heritage, diversity, creativity and the transmission of knowledge as a driver and enabler of sustainable development of all cities and territories

**Proposed goal 13. Tackle climate change and its impacts \***

- 13.1 strengthen resilience and adaptive capacity to climate induced hazards and natural disasters in all countries , at all levels of government with particular focus on the cities of the developing world where vulnerability will be highest
- 13.2 integrate climate change adaptation and mitigation into national and local strategies and plans

**Proposed goal 16. Achieve peaceful and inclusive societies, access to justice for all, and effective-, accountable and capable institutions**

- 16.4 by 2030 increase inclusive, participatory and representative decision-making at all levels, local, national, and regional in accordance with the principle of subsidiarity and ensure prior informed consent of indigenous and local communities in decision-making and natural resources management, and promote the use of their traditional knowledge and culture
- 16.1 by 2030 provide equal access for all to independent, effective, and responsive justice systems and promote the rule of law and good governance

**Proposed goal 17. Strengthen the means of implementation and the global partnership for sustainable development \***

**Finance**

- 17.5 strengthen domestic resource mobilization, including through international support to improve domestic capacity for tax collection at national and local level, and mobilize additional international financial resources from multiple sources

**Capacity building**

- 17.10 develop and implement effective and targeted capacity building programmes in developing countries in support of national and local plans for implementing all sustainable development goals

---

\* The targets under a Climate Change goal may be part of and complementary to possible targets to be agreed within the framework of the UNFCCC negotiations.

\* To be aligned with the outcomes of the report of the Intergovernmental Committee of Experts on Sustainable Development Financing and the third International Conference on Financing for Development in July 2015.
