

**VENICE CITY SOLUTIONS 2030
Financing the SDGs at local level**

Venice, Italy; November 16- 17th, 2018

If we want to achieve the SDGs, we need to think about how we are going to fund them. Financing the local implementation of SDGs will bring visible impact in the lives of the people. In this, cities and local governments are key players, as they are the ones that can provide the link between the global agendas and the citizen.

The event is opened to local and regional governments, ministries in charge of planning, finances or overall implementation of Agenda 2030, as well as selected partners such development banks, donors and private sector with the objective to identify existing experiences, gathering data and providing solutions to the challenge of how to finance the implementation of the SDGs at local level.

Four thematic trails will be addressed in Venice:

Thematic trail BLUE: National strategies for financing the achievement of the SDGs at local level

Thematic trail YELLOW: City Solutions, how local governments are making the Agenda 2030 a reality at local level

Thematic trail GREEN: Data available to track alignment of budgets to Localize Agenda 2030

Thematic trail RED: Dynamic local economies to achieve the 2030 Agenda

The Venice City Solutions is co-organized by [UN-Habitat](#), [United Nations Capital Development Fund – UNCDF](#), the [United Nations Development Programme](#), and [United Cities and Local Government](#).

The event is hosted by [AICCRE](#), the Italian association of local governments for the CEMR, and financially supported by [Platforma](#) and [UNACLA](#), the United Nations Advisory Committee of Local Authorities. The activity counts with the technical support of [FMDV](#).

The event is by invitation only, if you are interested in participating, please contact us as soon as possible as places will be assigned in a first arrived first served basis.
