Live Learning Experience: Beyond the Immediate Response to the Outbreak
Public Service Delivery, a Pillar to Address the Pandemic

For more information contact: policy@uclg.org
Xi'an is currently in the recovery stage.

As of March 25, 120 cases had been confirmed, 114 cured, 3 died and 3 in hospital.

Life of citizens is returning to normal.

International trade has been greatly affected and international exchanges have been sharply reduced.
Main challenges

Three main challenges you have recognized are a priority for local/regional governments to act on.

1. People's understanding and support
2. Impact of the pandemic on local economic development
3. Prevention and control of imported cases
Local response

**Background:** The blockade of Wuhan has bought valuable time for other cities across China.

1. Find and treat local patients, as well as medical observation of close contacts
2. Persuade citizens to stay at home, and provide necessary supplies
3. Set up specialized institutions
4. Offer series medical treatments and mental guidance
5. Promote publicity with open and transparent data

......
Future vision

1. Solidarity, work together for the future
2. Top priority: people's lives and health
3. LRGs contribution to the world sustainable development
4. Sustainable and resilient communities
5. High tech and smart city
6. Green development
THANK YOU!
